Don't Eat The Marshmallow Yet! Joachim de Posada, Ellen Singer, 2005-09-06 Learn how to achieve success and eat your marshmallows too with this motivational life changing book What explains the difference between success and failure And what does it mean to you and your children The answer lies in a landmark Stanford University study Children were left in a room each with a marshmallow and given the choice of eating it then or fifteen minutes later when they were promised an extra marshmallow as a reward for waiting Some ate theirs right away Others

waited But the study's real significance came a decade later when the researchers discovered that the children who held out for the reward had become more successful adults than the children who gobbled their marshmallows immediately The lesson wasn't lost on Joachim de Posada a world renowned motivational speaker to thousands of corporate executives and professional athletes The marshmallow theory answered a thirty year quest to find a compelling explanation for why some people succeed and others fail Posada was convinced that the key difference between success and failure is not merely hard work or superior intelligence but the ability to delay gratification Marshmallow resisters achieve high levels of success while the rest of us eat all our marshmallows at once so to speak accumulating debt and dissatisfaction no matter what our occupations or incomes But it doesn't have to be that way Using a simple parable and real life examples including basketball great Larry Bird and major league baseball catcher Jorge Posada Joachim's cousin this book shows you how the moves you make today can pay off big tomorrow if you just don't eat the marshmallow yet

The Game Theorist's Guide to Parenting Paul Raeburn, Kevin Zollman, 2016-04-05 I absolutely loved this book both as a parent and as a nerd Jessica Lahey author of *The Gift of Failure* Delightfully witty refreshingly irreverent and just a bit Machiavellian *The Game Theorist's Guide to Parenting* looks past the fads to offer advice you can put into action today As every parent knows kids are surprisingly clever negotiators But how can we avoid those all too familiar wails of That's not fair and You can't make me In *The Game Theorist's Guide to Parenting* the award winning journalist and father of five Paul Raeburn and the game theorist Kevin Zollman pair up to highlight tactics from the worlds of economics and business that can help parents break the endless cycle of quarrels and ineffective solutions Raeburn and Zollman show that some of the same strategies successfully applied to big business deals and politics such as the Prisoner's Dilemma and the Ultimatum Game can be used to solve such titanic age old parenting problems as dividing up toys keeping the peace on long car rides and sticking to homework routines Raeburn and Zollman open each chapter with a common parenting dilemma Then they show how carefully concocted schemes involving bargains and fair incentives can save the day Through smart case studies of game theory in action Raeburn and Zollman reveal how parents and children devise strategies where those strategies go wrong and what we can do to help raise happy and savvy kids while keeping the rest of the family happy too
