The McDonaldization Of Society:

The McDonaldization of Society George Ritzer, 2013 George Ritzer's *McDonaldization of Society* now celebrating its 20th anniversary continues to stand as one of the pillars of modern day sociological thought. By linking theory to 21st century culture, this book resonates with students in a way that few other books do, opening their eyes to many current issues especially in consumption and globalization. As in previous editions, the book has been updated and it offers new discussions of, among others, In N Out Burger and Pret A Manger as possible antitheses of McDonaldization. The biggest change, however, is that the book has been radically streamlined to offer an even clearer articulation of the now famous McDonaldization thesis.

The McDonaldization of Society George Ritzer, 2018-01-12 The book that made McDonaldization part of the lexicon of contemporary sociological theory, read by hundreds of thousands of students, is now in its Ninth Edition. George Ritzer's seminal work of critical sociology, *The McDonaldization of Society*, continues to stand as one of the pillars of modern day sociological thought. Building on the argument that the fast food restaurant has become the model for the rationalization process today, this book links theory to contemporary life in a globalized world and resonates with students in a way that few other books do. Ritzer opens students' eyes to many current issues and shows how McDonaldization's principles apply to other settings, especially in the areas of consumption and globalization. Through vivid story telling prose, Ritzer provides an insightful introduction to this fascinating topic and aids students' critical development. This new edition has been fully updated to include a new focus on McDonaldization in the digital world.

The McDonaldization of Society George Ritzer, 2018-01-12 *The McDonaldization of Society* is George Ritzer's seminal work of critical sociology that links classical sociological theory to many aspects of contemporary life in a globalized world. Max Weber's rationalization thesis, updated and applied to the late 20th and early 21st century, where Weber focused on bureaucracies as the iron cages of rationalization in his time, the central premise of McDonaldization is that the fast food restaurant has become the model for the rationalization process today. The book examines ways in which fast food businesses have created a system of operation based on efficiency, calculability, predictability, and control, and how the same principles have been applied to other settings and contexts as diverse as motel chains, big box stores, churches, child care centers, college rankings, health care providers, political participation, and most recently, the Internet.

The McDonaldization of Society George Ritzer, 2018-01-12 The author is a proud sponsor of the 2020 SAGE Keith Roberts Teaching Innovations Award, enabling graduate students and early career faculty to attend the annual ASA pre-conference teaching and learning workshop.
