The Medieval Revival And Its Influence On The Romantic Movement:

The Medieval Revival and Its Influence on the Romantic Movement R. R. Agrawal, 1990 *Cosmo Innes and the Defence of Scotland's Past c. 1825-1875* Richard A. Marsden, 2016-05-13 Today Scotland's history is frequently associated with the clarion call of political nationalism. However, in the nineteenth century, the influence of history on Scottish national identity was far more ambiguous. How then did ideas about the past shape Scottish identity in a period when union with England was all but unquestioned? The activities of the antiquary Cosmo Innes (1798-1874) help us to address this question. Innes was a prolific editor of medieval and early modern documents relating to Scotland's parliament, legal system, burghs, universities, aristocratic families, and pre-Reformation church. Yet unlike scholars today, he saw that editorial role in interventionist terms. His source editions were artificial constructs that powerfully articulated his worldview and agendas, emphasising Enlightenment-inspired narratives of social progress and institutional development. At the same time, they used manuscript facsimiles and images of medieval architecture to foreground a romantic concern for the texture of past lives. Innes operated within an elite associational culture which gave him access to the leading intellectuals and politicians of the day. His representations of Scottish history therefore had significant influence and were put to work as commentaries on some of the major debates which exercised Scotland's intelligentsia across the middle decades of the century. This analysis of Innes's work, with sources set within the intellectual context of the time and against the antiquarian activities of his contemporaries, provides a window onto the ways in which the national past was perceived in Scotland during the nineteenth century. This allows us to explore how historical thinkers negotiated the apparent dichotomies between Enlightenment and Romanticism, whilst at the same time enabling a re-examination of prevailing assumptions about Scotland's supposed failure to maintain a viable national consciousness in the later 1800s.

The Year's Work in Medievalism, 2008 M. J. Toswell, 2009-04-01 *The Year's Work in Medievalism 2008* includes papers delivered at the 22nd Annual conference on Medievalism organized by the International Society for Studies in Medievalism and held at the University of Western Ontario, London, Ontario, Canada, on 4-7 October 2007. The topic of the conference was Neomedievalism, and these papers address various aspects of the term, including its definition, range, and application. The conference was organized by M. J. Toswell, who is the editor of this volume. The Director of Conferences and Series Editor of the *Year's Work in Medievalism* is Gwendolyn Morgan.

Secession on Trial Cynthia Nicoletti, 2017-10-19 This book explores the treason trial of President Jefferson Davis, where the question of secession's constitutionality was debated.

In Defense of Doctrine Rhyne R. Putman, 2015-06-01 *In Defense of Doctrine* is an apologetic for the ongoing constructive theological task in Protestant and Evangelical traditions. It suggests that doctrinal development can be explained as a hermeneutical phenomenon, and that insights from hermeneutical philosophy and the philosophy of language can aid theologians in constructing explanatory theses for particular theological problems associated with the facts of doctrinal development. Joining the recent call to theological interpretation of Scripture, Putman provides a

constructive model that forwards a descriptive and normative pattern for reading Scripture and theological tradition together

Mass Market Medieval David W. Marshall, 2007-04-11 Beginning in 1976 with the first issue of the journal *Studies in Medievalism* all things medieval and the concept of medievalism became a hot topic in culture studies. Medievalism examines how different groups, individuals, or eras use and shape the image of the Middle Ages, differentiating between historical knowledge of the Middle Ages and what we have made the period out to be. The 13 essays in this book explore the medieval invasion of today's media and consider the various ways from film and print to websites and video games that the Middle Ages have been packaged for consumption. Essays encompass diverse theoretical perspectives and are grouped loosely around distinct functions of medievalism, including the exposure of recent social concerns, the use of medieval images in modern political contexts, and the medieval's influence on products of today's popular culture. The legitimization of the study of medievalism and the effect of medievalism on the more traditional subject of medieval studies are also discussed.

Instructors considering this book for use in a course may request an examination copy here **Engendering** Karl Fugelso, 2024 Essays on the postmodern reception and interpretation of the Middle Ages. Though *Studies in Medievalism* has hosted many essays on gender, this is the first volume devoted specifically to that theme. The first part features four short essays that directly address manifestations of sexism in postmedieval responses to the Middle Ages: gender substitutions in a Grail Quest episode of the 2023 television series *Mrs. Davis*; repurposed misogyny in the last two episodes of *Game of Thrones*; 2011-19 traditional gender stereotypes in Capital One's credit card commercials from 2000 to 2013; and shaggy medievalism in Robert Eggers' 2022 film *The Northman*. The second part contains ten longer essays which collectively continue to demonstrate the ubiquity of gender issues and the extraordinary flexibility of approaches to them. The authors discuss the misogynistic sexualization of Grendel's mother in Parke Godwin's 1995 fantasy novel *The Tower of Beowulf*; in Graham Baker's 1999 film *Beowulf*; in three episodes from the television series *Xena: Warrior Princess*; and in Robert Zemeckis's 2007 film *Beowulf*; gender substitution in David Lowery's 2021 film *The Green Knight*; and in Kinoku Nasu's and Takashi Takeuchi's anime series *Fate*. 2004 female authorship of three early nineteenth-century plays about court ladies; medieval empowerment; extraordinary violence in medievalist video games; nationalism in fake nineteenth-century medievalist documents; and in contemporary online fora; racial discrimination in video gaming; and in Jim Crow literature and the condemnation of racism in Maria Dahvana Headley's 2018 novel *The Mere Wife*. *The French Language and British Literature, 1756-1830* Marcus Tomalin, 2016-03-31 From the 1750s to the 1830s numerous British intellectuals, novelists, essayists, poets, playwrights, translators, educationalists, politicians, businessmen, travel writers, and philosophers brooded about the merits and demerits of the French language. The decades under consideration encompass a particularly tumultuous period in Anglo-French relations that witnessed the Seven Years War (1756-1763), the American War of Independence (1775-1783), the Revolutionary and Napoleonic Wars (1792-1802 and 1803-1815), respectively the Bourbon Restoration (1814-1830) and the July Revolution (1830).

not to mention the gradual expansion of the British Empire and the complex cultural shifts that led from Neoclassicism to Romanticism In this book Marcus Tomalin reassesses the ways in which writers such as Tobias Smollett Maria Edgeworth William Wordsworth John Keats William Cobbett and William Hazlitt acquired and deployed French This intricate topic is examined from a range of critical perspectives which draw upon recent research into European Romanticism linguistic historiography comparative literature social and cultural history education theory and translation studies This interdisciplinary approach helps to illuminate the deep ambivalences that characterised British appraisals of the French language in the literature of the Romantic period
