The Mexican American Barbara J. Robinson, Joy Cordell Robinson, 1980 *Chicano Periodical Index*, 1987

Multiculturalism in the United States John D. Buenker, Lormen A. Ratner, 2005-03-30 Interest in ethnic studies and multiculturalism has grown considerably in the years since the 1992 publication of the first edition of this work. Co editors Ratner and Buenker have revised and updated the first edition of *Multiculturalism in the United States* to reflect the changes patterns and shifts in immigration showing how American culture affects immigrants and is affected by them. Common topics that helped determine the degree and pace of acculturation for each ethnic group are addressed in each of the 17 essays providing the reader with a comparative reference tool. Seven new ethnic groups are included: Arabs, Haitians, Vietnamese, Koreans, Filipinos, Asian Indians, and Dominicans. New essays on the Irish, Chinese, and Mexicans are provided as are revised and updated essays on the remaining groups from the first edition. The contribution to American culture by people of these diverse origins reflects differences in class, occupation, and religion. The authors explain the tensions and conflicts between American culture and the traditions of newly arrived immigrants. Changes over time that both of the cultures brought to America and of the culture that received them is also discussed. Essays on representative ethnic groups include African Americans, American Indians, Arabs, Asian Indians, Chinese, Dominicans, Filipinos, Germans, Haitians, Irish, Italians, Jews, Koreans, Mexicans, Poles, Scandinavians, and the Vietnamese.

North from Mexico Carey McWilliams, Matt S. Meier, Alma M. García, 2016-04-25 This single volume book provides students, educators, and politicians with an update to the classic Carey McWilliams work *North From Mexico*. It provides up to date information on the Chicano experience and the emergent social dynamics in the United States as a result of Mexican immigration. Carey McWilliams's *North From Mexico*, first published in 1948, is a classic survey of Chicano history. Now fully updated by Alma M. García to cover the period from 1990 to the present, McWilliams's quintessential book explores all aspects of Chicano experiences in the United States, including employment, family, immigration policy, language issues, and other cultural, political, and social issues. The volume builds on the landmark work and also provides relevant up to date content to the 1990 edition revised by Matt S. Meier, which added coverage of the key period in Chicano history from the postwar period through to the late 1980s. As the largest group of immigrants in the United States, representing more than a quarter of foreign born individuals in the United States, Mexican immigrants have had and will continue to have a tremendous impact on the culture and society of the United States as a whole. This freshly updated edition of *North from Mexico* addresses the changing demographic trends within Mexican immigrant communities and their implications for the country, analyzes key immigration policies such as the Immigration Act of 1990 and California's Proposition 187 with specific emphasis on the political mobilization that has developed within Mexican American immigrant communities, and describes the development of immigration reform as well as community organizations and electoral politics. The book contains new chapters that examine recent trends in Mexican immigration to the United States and identify the

impact on politics and society of Mexican immigrants and later generations of U S born Mexican Americans The appendices provide readers and researchers with current immigration figures and information regarding today s socioeconomic conditions for Mexican Americans *Guide to Chicano Resources in the University of Arizona Library* University of Arizona.
