D. Serio**

Smuggling Armageddon:

Smuggling Simon Harvey, 2016-04-15 A cellar door creaked open in the middle of the night or a hand slipping quickly into a trenchcoat the most compelling transactions are surely those we never see Smuggling can conjure images of adventure and rebellion in popular culture Han Solo knew all about it as did Al Capone but as Simon Harvey shows in this fascinating book smuggling has had a profound effect on the geopolitics of the world Shining a light onto seven centuries of dark history he illuminates a world of intrigue and fortunes hinged on outlaw desires and those who have been willing to fulfill them Harvey tells this story by focusing on the most coveted contrabands of their time In the Age of Discovery these were silk spices and silver During the days of western empires they were gold opium tea and rubber And in modern times it has been of course drugs To the side of these major commodities he looks at a wide array of things that have always been in smugglers trunks from guns to art to the most dangerous of all ideas Central to this story are the not always legitimate forces of the Dutch and British East India Companies the luminaries of the Spanish Empire Napoleon Bonaparte the Nazis Soviet trophy brigades and the CIA all of whom have made smuggling at one point or another part of their modus operandi Beneath this Harvey traces out the smaller time smugglers the micro economies of everyday goods precious objects and people drawing the whole story together into a map of a subterranean world crisscrossed by smugglers paths All told this is the story of the unrelenting drive of markets to subvert the law of the invisible seams that have sewn the globe together **Nuclear Terrorism after 9/11**

Robin M. Frost, 2020-10-28 The very mention of nuclear terrorism is enough to rouse strong reactions and understandably so because it combines the most terrifying weapons and the most threatening of people in a single phrase The possibility that terrorists could obtain and use nuclear weapons deserves careful analysis but discussion has all too often been contaminated with exaggeration even hysteria For example it has been claimed that nuclear terrorism poses an existential threat to the United States This Adelphi Paper develops a more measured analysis of the risk of terrorists detonating a true fission device The problem is attacked from two perspectives the considerable possibly insurmountable technical challenges involved in obtaining a functional nuclear weapon whether home made or begged borrowed or stolen from a state arsenal and the question of the strategic political and psychological motivations to go nuclear The conclusions are that nuclear terrorism is a less significant threat than is commonly believed and that among terrorists Muslim extremists are not the most likely to use nuclear weapons

Dark Logic Robert Mandel, 2011 This book constitutes the first major study showing 1 when transnational organized crime is likely to use corruption and violence tactics 2 when transnational criminal activities most affect individual and state security and 3 when the negative consequences of these tactics and activities can be most successfully combated

Handbook of Transnational Crime and Justice Philip Reichel, Jay Albanese, 2013-04-29 Transnational crime and justice will characterize the 21st century in same way that traditional street crimes dominated the 20th century In the Handbook of Transnational Crime and Justice Philip Reichel and Jay Albanese bring together top scholars

from around the world to offer perspectives on the laws crimes and criminal justice responses to transnational crime This concise reader friendly handbook is organized logically around four major themes the problem of transnational crime analysis of specific transnational crimes approaches to its control and regional geographical analyses Each comprehensive chapter is designed to be explored as a stand alone topic making this handbook an important textbook and reference tool for students and practitioners alike

Preventing Nuclear Meltdown James Clay Moltz,Vladimir A. Orlov,Adam N. Stulberg,2017-07-05 In this important volume a group of leading US and Russian policy experts drawing on extensive interviews with officials facility personnel and analysts in Russia s regions explores the intersecting problems of Russian nuclear insecurity and decentralization including the growing influence of regional political and economic forces

Parameters ,2003
Rethinking Organised Crime Leslie Holmes,2024-05-02 A complex phenomenon which has undergone significant changes in the past forty years Leslie Holmes argues that organised crime is in need of re conceptualisation This innovative book navigates the evolution of this issue to grasp its full scope in the twenty first century

The Oxford Handbook of the Quality of Government Andreas Bågenholm,Monika Bauhr,Marcia Grimes,Bo Rothstein,2021 Corruption has become a central issue in current policy debates This Handbook provides state of the art research on this important topic It demonstrates the disastrous effects of high levels of corruption for most areas of human well being and presents research results about strategies that can get corruption under control

Rotten States? Leslie Holmes,2006-06-08 Official corruption has become increasingly prevalent around the world since the early 1990s The situation appears to be particularly acute in the post communist states Corruption be it real or perceived is a major problem with concrete implications including a lowered likelihood of foreign investment In *Rotten States* Leslie Holmes analyzes corruption in post communist countries paying particular attention to Bulgaria Hungary Poland and Russia as well as China which Holmes argues has produced through its recent economic liberalization a system similar to post communism As he points out these countries offer useful comparisons they vary in terms of size religious orientation ethnic homogeneity and their approaches to and economic success with the transition from communism Drawing on data including surveys commissioned especially for this study Holmes examines the causes and consequences of official corruption as well as ways of combating it He focuses particular attention on the timing of the recent increase in reports of corruption the relationship between post communism and corruption and the interplay between corruption and the delegitimation and weakening of the state Holmes argues that the global turn toward neoliberalism with its focus on ends over means flexibility and a reduced role for the state has generated much of the corruption in post communist states At the same time he points out that neoliberalism is perhaps the single most powerful tool for overcoming the communist legacy which is an even more significant cause of corruption Among the conclusions that Holmes draws is that a strong democratic state is needed in the early stages of the transition from communism in order to prevent corruption from taking hold

The Nuclear Challenge Christoph Bluth,2019-07-16 This title

was first published in 2000 Christoph Bluth provides a comprehensive and timely analysis of strategic nuclear arms policy in the United States and Russia and examines the collaborative efforts to reduce nuclear weapons through arms control and render nuclear weapons and fissile materials in Russia secure He concludes that the end of the Cold War has created new and unprecedented dangers and that these dangers require a greater political will and cooperation which have so far been lacking

In Armageddon's Shadow Greg Marquis, 2000 The United States had important ties with Canada's Maritime Provinces that were profoundly shaken by the American Civil War Drawing extensively on newspaper reports personal papers and local histories Greg Marquis captures the drama of the times effectively putting the reader into the thick of the action In *Armageddon's Shadow* highlights Maritime support for the beleaguered Confederacy and the grave implications this had on race relations in Canada Marquis details the involvement of maritimers in running blockades and recounts the experiences of some of the thousands of men from Nova Scotia New Brunswick and Prince Edward Island who served in America's bloodiest conflict Book jacket

Eastern Europe, Russia and Central Asia 2003, 2000

Nuclear Weapons and the Environment John Perry, 2021-03-12 In *Nuclear Weapons and the Environment* John Perry highlights the environmental damage caused by nuclear device testing The failure of the Nuclear Proliferation Treaty and the continued proliferation of nuclear weapons is a grave risk to not only human life but to the environment Pointing to the unstable political situation between a variety of state and non state actors the remediation of nuclear test sites and the risks involved in the production of nuclear weapons Perry makes a clear case for the dire importance of non proliferation

Dirty Entanglements Louise I. Shelley, 2014-07-28 Using lively case studies this book analyzes the transformation of crime and terrorism and the business logic of terrorism

Illicit Trafficking Robert J. Kelly, Jesse L. Maghan, Joseph D. Serio, 2005-06-29 A detailed survey of a growing scourge of the global economy the smuggling of people materials and money Smuggling used to be a family business Today it is big business *Illicit Trafficking A Reference Handbook* offers a thorough introduction to the problems of illegal trafficking that have emerged from and been intensified by globalization This title provides an examination of how criminal enterprises have exploited opportunities to enrich themselves and broadened their involvement in many areas of illegal trafficking while compromising or evading legal authorities The coverage includes a brief history of illicit trafficking analyzes current problems and examines local and global containment policies such as Presidential Decision Directive 42 It also explores key international agreements on money laundering bank secrecy laws extradition treaties and technologies that have exploited legitimate business opportunities to enrich their profits while compromising or evading legal authorities

Will Terrorists Go Nuclear? Brian Michael Jenkins, 2009-12-02 For more than 30 years Jenkins has been advising the military government and prestigious think tanks on the dangers of nuclear proliferation Now he goes beyond what the experts know to examine how terrorists themselves think about such weapons

[Transnational Crime in the Americas](#) Tom J. Farer, 2004-04-16 First published in 2000 Routledge is an imprint of Taylor Francis an informa company

Tangled Roots

Jeffrey Ivan Victoroff, 2006 What do we really know about the contributing causes of terrorism Are all forms of terrorism created equal or are there important differences in terrorisms that one must know about to customize effective counter strategies Does poverty cause terrorism This book talks about the basic human ingredients that combust to produce violent extremism , **Understanding Terrorist Innovation** Adam Dolnik, 2007-04-11 This book explores the innovations and advances in terrorist tactics and technologies to help fill the gap in the contemporary terrorism literature by developing an empirical theory of terrorist innovation The key question concerns the global historical trends in terrorist innovation as well as the critical factors responsible for the differences in practices among terrorist organizations The first part of the book provides an overview of the tactics and technology used by terrorists in the last century and identifies the key trends for the future The second part compares four differing terrorist organizations with the aim of identifying key factors in producing innovative tactics and weaponry The volume provides a historical explanation of the trends in terrorist innovation and also has policy relevance as the ability to identify signature characteristics of innovation prone terrorist organizations is a critical element in predictive threat assessment Understanding Terrorist Innovation will be of great interest to students of terrorism studies security studies and political science in general
