 also educational challenging and encouraging Most of these writings were based on author Michael J Akers's teaching of

 of the physiological steps one takes in performing the process called reading More commonly it is a manual describing the  
 methods a teacher may use in teaching schoolage children to acquire the mechanical aspects of reading Some far fewer are  
 focused on the psychology of reading such psychology usually emphasizing the conscious and logical approaches to learning  
 Still others are directed toward some particular part of reading in its socio historical setting as for example freedom to read  
 or adult reading habits or variation in trends in the production of materials All books of such nature are relevant to the
