**Transformations and Crisis of Liberalism in Argentina, 1930-1955** Jorge A. Nállim, 2014-08-14 N llim chronicles the decline of liberalism in Argentina during the volatile period between two military coups the 1930 overthrow of Hip lito Yrigoyen and the deposing of Juan Per n in 1955 While historians have primarily focused on liberalism in economic or political contexts N llim instead documents a wide range of locations where liberalism was claimed and ultimately marginalized in the pursuit of individual agendas N llim shows how concepts of liberalism were espoused by various groups who invented traditions to legitimize their methods of political religious class intellectual or cultural hegemony In these deeply fractured and corrupt processes liberalism lost political favor and alienated the public These events also set the table for Peronism and stifled the future of progressive liberalism in Argentina N llim describes the main political parties of the period and deconstructs their liberal discourses He also examines major cultural institutions and shows how each attached liberalism to their cause N llim compares and contrasts the events in Argentina to those in other Latin American nations and reveals their links to international developments While critics have positioned the rhetoric of liberalism during this period as one of decadence or irrelevance N llim instead shows it to be a vital and complex factor in the metamorphosis of modern history in Argentina and Latin America as well

**Decrypting Power** Ricardo Sanín-Restrepo,2020-05-19 Decrypting Power aims to reach a unifying concept that allows the connection of the fundamental theses stemming from critical legal studies Subaltern studies decolonization law and society global political economy critical geopolitics and theories of decoloniality This volume proposes that this concept is the encryption of power a category of analysis that reveals the weakness of political liberalism when it takes the place of the legitimate fundament of democracy as well as its consummate capacity to conceal new mechanisms of global power The theory of encryption of power understands that there is only a world where difference exists as the fundamental and sole order but also that such a possibility is heavily obstructed by the concentration of power in forms of oppression The world hangs on the thread of this entangled reality made up of difference and its denial of democracy and its simulations of truth and its codifications The decryption of power is then above all a theory of justice essential to radical democracy which comes fully equipped to prevail over the conditions that deny the possibility of an egalitarian world **Inter-American**
