

# Niñez libre de VIOLENCIA

VIOLENCIA ES...

Abuso sexual

Negligencia o desatención

Explotación económica

Maltrato físico

Maltrato psicológico

La violencia infantil es una problemática grave que se está agudizando y es urgente atenderla. Para ello, es indispensable generar campañas de seguridad para los niños.

La Organización Mundial de la Salud recomienda:

- Reducir el uso del alcohol y las drogas por parte de los padres.
- Proporcionar a los tutores formación en materia de desarrollo infantil, métodos disciplinarios no violentos y habilidades para la resolución de problemas.
- Controlar la agresividad y el enojo.
- Dialogar en lugar de arreglar los problemas con golpes.

En México...

En 2015, habíamos 39.2 millones de menores, es decir, uno de cada tres residentes.

En 2014, 47.8% de la población infantil, es decir, 2 millones 31 mil 216 niños, fueron víctimas de al menos un acto de maltrato.

Al menos dos niños menores de 14 años mueren cada día a causa de la violencia familiar.

Cuatro de cada diez menores de edad son víctimas de delito o maltrato.

## **Sobre La Violencia On Violence Ciencia Sociales:**

**Sobre la violencia** Hannah Arendt, 2021-12-16 El término violencia en su sentido más elemental refiere al daño ejercido sobre las personas por parte de otros seres humanos. Los experimentos totalitarios del siglo XX ampliaron este uso de la violencia a una escala y una intensidad inéditas en la historia de la humanidad y es en este contexto donde cabe encuadrar esta obra perenne de Hannah Arendt. Para la filósofa política la violencia objeto de su estudio tiene dos caras: la violencia organizada del Estado o aquella que irrumpe frente al mismo. Esto ha hecho que muchos pensasen que la violencia es sobre todo una forma de ejercicio del poder. La posición de partida de la autora en *Sobre la violencia* consiste en el estudio minucioso de la violencia política en sus encarnaciones extremas dentro del mundo contemporáneo y en su cuidadosa separación entre violencia y poder político. Este último es el resultado de la acción cooperativa, mientras que la violencia del siglo XX está ligada al alcance magnificador de la destrucción que proporciona la tecnología. Traducción de Carmen Criado.

*Social Theories of Urban Violence in the Global South* Jennifer Erin Salahub, Markus Gottsbacher, John de Boer, 2018-04-19 While cities often act as the engines of economic growth for developing countries they are also frequently the site of growing violence, poverty and inequality. Yet social theory largely developed and tested in the Global North is often inadequate in tackling the realities of life in the dangerous parts of cities in the Global South. Drawing on the findings of an ambitious five year 15 project research programme *Social Theories of Urban Violence in the Global South* offers a uniquely Southern perspective on the violence, poverty, inequalities, dynamics in cities of the Global South. Through their research urban violence experts based in low and middle income countries demonstrate how urban violence means different things to different people in different places. While some researchers adopt or adapt existing theoretical and conceptual frameworks others develop and test new theories each interpreting and operationalizing the concept of urban violence in the particular context in which they work. In particular the book highlights the links between urban violence, poverty and inequalities based on income, class, gender and other social cleavages. Providing important new perspectives from the Global South this book will be of interest to policymakers, academics and students with an interest in violence and exclusion in the cities of developing countries.

**Encounters with Violence in Latin America** Cathy McIlwaine, Caroline Moser, 2004-08-02 Latin America is both the world's most urbanized and fastest developing regions where the links between social exclusion, inequality and violence are clearly visible. The banal, ubiquitous nature of drug crime, robbery, gang and intra-family violence destabilizes countries' economies and harms their people and social structures. *Encounters with Violence: Crime in Latin America* explores the meaning of violence and insecurity in nine towns and cities in Colombia and Guatemala to create a framework of how and why daily violence takes place at the community level. It uses pioneering new methods of participatory urban appraisal to ask local people about their own perceptions of violence as mediated by family, gender, ethnicity and age. It develops a typology which distinguishes between the political, social and economic violence that afflicts communities and which assesses the costs

of consequences of violence in terms of community cohesion and social capital This gives voice to those whose daily lives and dominated by widespread aggression and provides important new insights for researchers and policy makers

**Violence and Resilience in Latin American Cities** Kees Koonings,Dirk Kruijt,2015-11-15 Why are Latin American cities amongst the most violent in the world Over the past decades Latin America has not only become the most urbanised of the regions of the so called global South it has also been the scene of the urbanisation of poverty and exclusion Overall regional homicides rates are the highest in the world a fact closely related to the spread and use of firearms by male youths who are frequently involved in local and translocal forms of organised crime In response governments and law enforcements agencies have been facing mounting pressure to address violence through repressive strategies which in turn has led to a number of consequences law enforcement is often based on excessive violence and the victimisation of entire marginal populations Thus the dynamics of violence have generated a widespread perception of insecurity and fear Featuring much original fieldwork across a broad array of case studies this cutting edge volume focuses on questions not only of crime insecurity and violence but also of Latin American cities ability to respond to these problems in creative and productive ways *The Oxford Handbook of the Sociology of Latin America* Xóchitl Bada,Liliana Rivera Sánchez,2021 The essays included in this volume provide both an assessment of key areas and current trends in sociology specifically with regard to contemporary sociology in Latin America as well as a collection of innovative empirical studies The volume serves as an effective bridge of communication allowing sociological academics to mobilize and disseminate research dynamics from Latin America to the rest of the world

**The Paradox of Violence in Venezuela** David Smilde,Verónica Zubillaga,Rebecca Hanson,2023-05-30 Crime and violence soared in twenty first century Venezuela even as poverty and inequality decreased contradicting the conventional wisdom that these are the underlying causes of violence The Paradox of Violence in Venezuela explains the rise of violence under both Hugo Ch vez and Nicol s Maduro leftist presidents who made considerable investment in social programs and political inclusion Contributors argue that violence arose not from the frustration of inequality or the needs created by poverty but rather from the interrelated factors of a particular type of revolutionary governance extraordinary oil revenues a reliance on militarized policing and the persistence of concentrated disadvantage These factors led to dramatic but unequal economic growth massive institutional and social change and dysfunctional criminal justice policies that destabilized illicit markets and social networks leading to an increase in violent conflict resolution The Paradox of Violence in Venezuela reorients thinking about violence and its relationship to poverty inequality and the state

**Crime and Violence in Latin America** H. Hugo Frühling,Joseph S. Tulchin,Heather Golding,2003-06-02 Offers timely discussion by attorneys government officials policy analysts and academics from the United States and Latin America of the responses of the state civil society and the international community to threats of violence and crime

**The Culture of Violence** United Nations University,1994 These essays will provide new insights and focus for understanding internal violence and its cultural

connections to a broad audience of scholars policy makers and students of international politics and culture      **Las ciencias sociales y el Estado nacional en México** Óscar F. Contreras, Cristina Puga, 2018-11-09 Las ciencias sociales y el Estado nacional en México está compuesto por catorce capítulos en los que se estudia el desarrollo de las ciencias sociales en México y su importante papel en la conformación de México como nación así como los problemas a los que se enfrentaron dichas ciencias por lo menos hasta bien entrado el siglo XX Los primeros apartados indagan acerca de la importancia de la antropología indígena y la conformación del Estado mexicano desde los primeros intentos de independencia pasando por los movimientos revolucionarios hasta llegar al siglo XX La segunda mitad de la obra es un estudio sobre los diferentes problemas políticos y sociales como desigualdad inseguridad y la necesidad de una identidad nacional a los que se han enfrentado las ciencias sociales      **Sexual Violence during War and Peace** J. Boesten, 2014-04-16 Using the Peruvian internal armed conflict as a case study this book examines wartime rape and how it reproduces and reinforces existing hierarchies Jelke Boesten argues that effective responses to sexual violence in wartime are conditional upon profound changes in legal frameworks and practices institutions and society at large      **Fear and Crime in Latin America** Lucía Dammert, 2012-10-02 The feeling of insecurity is a little known phenomenon that has been only partially explored by social sciences However it has a deep social cultural and economic impact and may even contribute to define the very structures of the state In Latin America fear of crime has become an important stumbling block in the region's process of democratization After long spells of dictatorships and civil wars violence in the region was supposed to be under control yet crime rates have continued to skyrocket and citizens remain fearful This analytical puzzle has troubled researchers and to date there is no publication which explores this problem Based on a wealth of cutting edge qualitative and quantitative research Lucía Dammert proposes a unique theoretical perspective which includes a sociological criminological and political analysis to understand fear of crime She describes its linkages to issues such as urban segregation social attitudes institutional trust public policies and authoritarian discourses in Chile's recent past Looking beyond Chile Dammert also includes a regional comparative perspective allowing readers to understand the complex elements underpinning this situation Fear and Crime in Latin America challenges many assumptions and opens an opportunity to discuss an issue that affects everyone with key societal and personal costs As crime rates increase and states become even more fragile fear of crime as a social problem will continue to have an important impact in Latin America      Handbook of Research on Digital Violence and Discrimination Studies Özsungur, Fahri, 2022-04-08 Digital violence continues to increase especially during times of crisis Racism bullying ageism sexism child pornography cybercrime and digital tracking raise critical social and digital security issues that have lasting effects Digital violence can cause children to be dragged into crime create social isolation for the elderly generate intercommunal conflicts and increase cyber warfare A closer study of digital violence and its effects is necessary to develop lasting solutions The Handbook of Research on Digital Violence and Discrimination Studies introduces the current best

practices laboratory methods policies and protocols surrounding international digital violence and discrimination Covering a range of topics such as abuse and harassment this major reference work is ideal for researchers academicians policymakers practitioners professionals instructors and students

*Peace in Latin America* David Díaz Arias, Christine Hatzky, Werner Mackenbach, Sebastián Martínez Fernández, Joachim Michael, Hinnerk Onken, 2024-12-30 This volume shifts the focus from violence to peace studies in Latin America and sheds light on how social groups and individuals resist to violence and strive to create peaceful or at least less violent conditions of conviviality Drawing on social sciences history and anthropology but also on cultural literary and film studies the book examines the role of social mobilizations civic activism and cultural artistic initiatives as responses to the crisis of violence which the state is unable or unwilling to address In this sense it debates what a culture of peace could mean in Latin America Divided into four chapters Chapter 1 discusses peace from an epistemological and philosophical perspective In Chapter 2 the authors discuss the contours of a culture of peace with a particular focus on literary and cinematic narratives Chapter 3 analyses the public debate about the role of the state in peace processes in the case of Costa Rica Central America Chapter 4 examines the importance of civil society activities in peace processes Peace in Latin America is written for a wide and diverse audience that includes researchers professors specialists students civil society activists and political actors not only from Latin America but from all over the world

Youth Violence in Latin America G. Jones, 2009-10-26 This volume provides a systematic overview of the contemporary Latin American youth violence phenomenon The authors focus specifically on youth gangs juvenile justice issues and applied research concerns providing a rounded and balanced exploration of this increasingly important topic

**The Prism of Human Rights** Karin Friederic, 2023-08-11 Gender violence has been at the forefront of women s human rights struggles for decades shaping political movements and NGO and government programs related to women s empowerment community development and public health Drawing on over twenty years of research and activism in rural Ecuador Karin Friederic provides a remarkably intimate view of what these rights based programs actually achieve over the long term The Prism of Human Rights brings us into the lives of women men and children who find themselves entangled in intimate partner violence structural violence political economic change and a global cultural project in which rights are associated with modernity development and democratic states She details the multiple forms of violence that rural women experience shows the diverse ways they make sense of endure and combat this violence and helps us understand how people are grappling with new ideas of gender rights and even of violence itself Ultimately Friederic demonstrates that rights based interventions provide important openings for women seeking a life free of violence but they also unwittingly expose liberated women to more extreme dynamics of structural violence Thus these interventions often reduce women s room to maneuver and encourage communities to hide violence in order to appear modern and developed This analysis of human rights in practice is essential for anyone seeking to promote justice in a culturally responsible manner and for anyone who hopes to understand how the globalization of rights

legal institutions and moral visions is transforming distant locales and often perpetuating violence in the process

**The Urban Poor in Latin America** Marianne Fay, 2005 About half of the region's poor live in cities and policy makers across Latin America are increasingly interested in policy advice on how to design programmes and policies to tackle poverty This publication argues that the causes of poverty the nature of deprivation and the policy levers to fight poverty are to a large extent site specific It therefore focuses on strategies to assist the urban poor in making the most of the opportunities offered by cities such as larger labour markets and better services while helping them cope with the negative aspects such as higher housing costs pollution risk of crime and less social capital

*The Routledge Companion to Gender and Reproduction* Barbara Katz Rothman, Elizabeth Newnham, Rodante van der Waal, Christie Sillo, 2025-03-31 The Routledge Companion to Gender and Reproduction provides an in depth approach to issues of gender and reproductive justice from a wide variety of countries and perspectives with particular attention to the range of reproductive injustices that flow from racism and sexism This collection provides a comprehensive and interdisciplinary approach to the current issues surrounding gender and procreation Topics addressed within these chapters include feminist history and reproductive rights reproductive care midwifery obstetric violence trans pregnancy abortion IVF
