Factors Behind the Ukrainian Evangelical Missionary Surge from 1989 to 1999 John Edward White, 2020-03-16 Throughout its history the Soviet Union was one of the most closed places in the world to missionary work As perestroika came in the late 1980s and the Soviet Union fell in 1991 a spiritual vacuum formed as massive numbers of people became interested in Christianity An unprecedented freedom allowed evangelicals to engage in missionary work Much has been written about foreign evangelical missionary work during this period but virtually nothing has been written about nationals doing ministry This book examines the remarkable surge in Ukrainian evangelical missionary work from 1989 to 1999 Both Baptists and Pentecostals engaged in a wave of missions flowing from Ukraine to the end of the earth Siberia

What were these pioneering missionaries like What motivated them What enabled them to do what had been forbidden for so long What legacy did they leave for us today What can we learn from their example for future missions This book also looks at how a surge in missions takes place analyzing the factors behind the Ukrainian evangelical missionary surge by looking at different models for change Here we consider what steps can we take to help bring about new missionary surges

Democracy versus Modernization Vladislav Inozemtsev, Piotr Dutkiewicz, 2013-05-07 This book seeks to re think democracy Over the past years there has been a tendency in the global policy community and even more widely in the world's media to focus on democracy as the gold standard by which all things political are measured This book re examines democracy in Russia and in the world more generally as idea desired ideal and practice A major issue for Russia is whether the modernization of Russia might not

prosper better by Russia focusing directly on modernization and not worrying too much about democracy This book explores a wide range of aspects of this important question It discusses how the debate is conducted in Russia outlines how Russians contrast their own experiences unfavourably with the experience of China where reform and modernization have been pursued with great success with no concern for democracy and concludes by assessing how the debate in Russia is likely to be resolved
