paths of inquiry It examines the fiscal systems and practices of medieval Europe including essential themes such as medieval fiscal theory and the power to tax royal and urban taxation and Church taxation It goes on to survey the entire European continent as well as including comparative chapters on the non European medieval world exploring questions on how taxation developed and functioned what kinds of problems authorities encountered assessing their fiscal power and the circulation of fiscal cultures and practices across cities and kingdoms The book also provides a glossary of the most important types of medieval taxes giving an essential definition of key terms cited in the chapters The Routledge Handbook of Public Taxation in Medieval Europe will appeal to a large audience from seasoned scholars who need a comprehensive synthesis to students and younger scholars in search of an overview of this critical subject

The Reception of Byzantine Culture in Mediaeval Russia Francis J. Thomson, 2024-12-11 It is a truism that Russian culture is based upon the reception of Byzantine culture However the question of what was in fact received is the task that Professor Thomson has set in these studies by means of a detailed examination of the corpus of

translations Down to the 17th century this corpus was essentially made up of works required for the liturgy and the monastic life Few works of dogmatic theology and virtually no classical or philosophical works were translated neither was a knowledge of Greek which would have provided access to the originals widespread The result was an unreasoning adherence to ritual forms Western ideas which began to penetrate into Muscovy in the 17th century were not absorbed by Russian culture but fundamentally reshaped it and the result led to a schism within the Church Russia today is Orthodox by religion but Byzantine culture disappeared with Byzantium A major section of addenda takes into account the advances in scholarship since the articles were first published *New Zealand Slavonic Journal* ,1990 **Law and Custom in the Steppe** Virginia Martin,2012-10-12 Offers a reconstruction of the social cultural and legal history of the Middle Horde Kazakh steppe in the 19th century using largely untapped archival records from Kazakhstan and Russia and contemporary reports It explores the cross cultural encounter of laws customs and judicial practices in the process of Russian empire building at the local level
