The Guilty Guns:

The Guilty Guns Lewis B. Patten, 1979 *Guns on Trial* Edward Green, 2009-11 When the love of his life is slain in an assault on a hospital by terrorists striving for maximum carnage John Foxcroft first violinist of the National Symphony Orchestra and ex Marine bandsman grieves inconsolably and vows vengeance On learning that the killers acquired their automatic rifles legally in the United States through a loophole in the law that allows unlicensed dealers to sell without background checks he focuses his rage on powerful interests that thwart strict gun laws His armed campaign panics the gun establishment by destroying the offices of the American Firearms Association and a gun show but without inflicting human injury An arrest leading to trial locks the advocates of gun control and gun rights into a fierce debate which reaches its climax in an internationally headlined criminal trial A maverick judge permits freewheeling debate to displace rules of testimony in a trial modeled procedurally after the historical Scopes monkey trial In the novel's most noteworthy contribution to the real world gun debate the defense demolishes the scientific foundations of the pro gun case represented by the prosecution with a simple yet overpowering logic Biographical sketches and events in the lives of the characters illuminate the human side of actions leading to and flowing from the hospital massacre John mends his heartbreak in a relationship with Libby Taylor also a survivor of the hospital massacre Defense Attorney Aaron Klein and Jesuit priest Father James Rourke conspire to conceal John's role as shooter The saga of the Al Qaeda terrorists sanctified by Osama Bin Laden takes the reader from the mountains bordering Afghanistan and Pakistan to the United States then to Guantanamo where the captives undergo interrogation Police strategizing to catch the shooter journalists putting events into context gun show pageantry gun lore brainstorming in gun association meetings and jurors deliberations bring to life the strategies and tactics of the combatants in the gun wars Although this is a work of fiction the claims counterclaims and evidence set forth in the trial testimony are authentic **The Guilty Guns** Kirk Hamilton, 1977* **The Theatrical Firearms Handbook** Kevin

Inouye, 2014-05-30 The Theatrical Firearms Handbook is the essential guide to navigating the many decisions that are involved in the safe and effective use of firearm props for both the stage and screen This book establishes baseline safety protocol while empowering performers and designers to tell their story of conflict in a way that makes the most of both established convention and current tools of the trade Within these pages are practical instruction couched in the language of theatre and film making firearms technology and concepts approachable to dramatic artists without any dumbing down of the subject material It contains over 100 illustrations This handbook is equally at home within the worlds of academic training professional performance and independent or community theatre and video productions and is an invaluable resource for fight choreographers props designers backstage crew directors actors stage managers and more at all levels of experience

safety and self defense Recent mass shootings have led to renewed calls for additional legislation at the state and federal levels to address gun access and control In this hard hitting compilation experts delve into various aspects of firearms in America from gun control and gun rights to militia movements to school related shootings and to the recent trends in gun ownership by women Authors from varied backgrounds and viewpoints share their perspectives on the pros and cons of firearm ownership as all of the following a constitutional right a key instrument of self defense a guarantee of political freedoms and as a major factor in crime and personal injury The reference is divided into three volumes The first volume covers firearm history legislation and policy the second volume explores public opinion gun ownership trends international laws and self defense and the third considers popular debates about firearm policy including concealed carry of firearms terrorism and the ownership of firearms background checks for purchasing guns and stand your ground laws The work concludes with an informed debate on gun policy between Richard Feldman president of the Independent Firearm Owners and Paul Helmke former president of the Brady Campaign to Prevent Gun Violence *Under the Gun* Peter H. Rossi,2017-09-29 In 1978 the Social and Demographic Research Institute of the University of Massachusetts Amherst received a grant from the National Institute of Justice to undertake a comprehensive review of the literature on weapons crime and violence in the United States The purpose of the project is best described as a sifting and winnowing of the claims and counterclaims from both sides of the Great American Gun War the perennial struggle in American political life over what to do if anything about guns about violence and about crime The review and analysis of the available studies consumed the better part of three years the results of this work are contained in this volume The intention of any review is to take stock of the available fund of knowledge in some topical area Under the Gun is no different our goal has been to glean from the volumes of previous studies those facts that in our view seem firmly and certainly established those hypotheses that seem adequately supported by or at least approximately consistent with the best available research evidence and those areas or topics about which it seems we need to know a lot more than we do One of our major conclusions can be stated in advance despite the large number of studies that have been done many critically important questions have not been adequately researched and some of them have not been examined at all Much of the available research in the area of weapons and crime has been done by advocates for one or another policy position As a consequence the manifest intent of many studies is to persuade rather than to inform We have tried to approach the topic from a purely agnostic point of view treating as an open question what policies should be enacted with regard to gun or crime control Thus we have tried to judge each study on its own merits on the basis of the routine standards normally applied to social scientific research and not on the basis of how effectively it argues for a particular policy direction It would of course be presumptuous to claim that we have set aside all our own biases in conducting this study Whether or not our treatment is fair and objective is clearly something for the reader and not us to decide **Guilty Guns** Lewis B.
