moral references or in the senseless outline of a world without intellectual bases Managing is an applied philosophical activity any attempt at repairing management academia and the practices it has produced must accept this conclusion as its premise     *Harpers' Latin Dictionary* Ethan Allen Andrews,Charlton Thomas Lewis,Charles Short,1879     *Peterson's Magazine* ,1853     *The Foundations of Philosophy* Michael Pol Macneil,2025-06-03 This work is about philosophy and what makes a philosophy distinctively Christian in character arguing that it is indeed possible for philosophy to be conceived of as first Christian and not just philosophy done by people that happen to be Christians Christian philosophy is epistemologically self conscious philosophy conducted in a manner honoring to the revelation of the Hebrew and Christian scriptures It is argued that philosophy should be transformative rather than just therapeutic or elucidatory The author examines competing philosophical and scientific accounts from both the empiricist and rationalist schools arguing they are coherent and successful only to the degree that they have imported consciously or unconsciously Christian transcendentals He then applies this insight to explore the character and practice of a Christian political philosophy     **Abductive Cognition** Lorenzo Magnani,2009-10-13 This volume explores abductive cognition an important but at least until the third quarter of the last century neglected topic in cognition It aims at increasing knowledge about creative and expert inferences     *The Modern Schoolman* ,1970     **Seminar on Stochastic Analysis, Random Fields and Applications VII** Robert C.
