into account the Reformation the printing press and growing interest in lay piety in the context of increasing individualism developing literacy privatization and or personalization of religion Contextualising devotional literature the volume refines understandings of religious practice fostered by traditional Catholicism and early modern Protestantism and its relationship with the written word locating the use of books within a devotional diet that included oral recitation of prayers as well as contemplation of images Stressing continuities often against the grain of existing literature this volume highlights differences between regional cultures of prayer in contrast to norms set by the universal Church and emphasizes the tension between public communal and private individual devotion

Richard III and the Murder in the Tower Peter A Hancock, 2011-08-26 Richard III is accused of murdering his nephews the Princes in the Tower in order to usurp the throne of England Since Tudor times he has been painted as the black legend the murderous uncle However the truth is much more complicated and interesting Rather than looking at all the killings Richard III did not commit this book focuses on the one execution for which we know that he was responsible On Friday 13 June 1483 William Lord Hastings was hustled from a meeting of the Royal Council and summarily executed on Tower Green within the confines of the Tower of London Peter A Hancock sheds light on the mystery of this precipitate and unadvised action by the then Duke of Gloucester and reveals the key role of William Catesby in Richard's ascent to the throne of England It explains his curious actions during that tumultuous summer of three kings and provides an explanation for the fate of the Princes in the Tower

The Use of Models in Medieval Book Painting Monika E. Müller, 2014-06-02 Until recently the phenomenon of copying in medieval book painting has been considered mainly in terms of the reconstruction of pictorial sources used for the composition or iconography of miniatures initials or decorative elements Although historic sources only rarely mention the circumstances of manuscripts production

one particular widely accepted hypothesis has prevailed until now according to which artists used model drawings or sketch books with the aim of facilitating the production of copies and the creation of new picture cycles However it is no longer sufficient to regard medieval book painting in its diachronic dimension only through these lenses Rather one should consider Robert W Scheller s critique that When using the model hypothesis one must always be mindful of other factors which are known to have played a part in the transmission of art in the Middle Ages The contributions of this volume deal with these issues by focusing on book painting between the 10th and 16th centuries
