Said Nursi's main concern is how to save and strengthen one's religious belief when confronted with the current prevalent materialist philosophy. It does not explain when or why a verse was revealed but rather the truth that it represents. Subjects discussed are God, resurrection, prophethood, destiny, ego worship, and how the truth of these matters is revealed through nature. The author also analyzes naturalist and materialist philosophy as well as scientific theories and findings and refutes them based on evidence that is clearly apparent in nature itself.

**Three Translations of the Koran (Al-Qur'an) Side by Side** Anonymous, 2020-09-28

**Al-Qur'an: Three Translations of The Koran** Muhammad Muhammad, 2016-08-24

The Quran, literally meaning the recitation, is the central religious text of Islam which Muslims believe to be a revelation from God Allah. It is widely regarded as the finest piece of literature in the Arabic language. The Quran is divided into chapters called suras which are then divided into verses called ayahs.

**'Arā'is Al-Majālis Fī Qisas Al-Anbiyā' or "Lives of the Prophets"** William M. Brinner, 2002-11-01

These 11th century tales written in many different languages and well known throughout the Muslim world have been read and studied through the years. This is however the first complete translation of the Arabic text into English from the story of the creation of the world to the time just before the coming of the Prophet Muhammad and the revelation of Islam. It includes tales of prophets who are Biblical figures but also of others not considered prophets in other traditions and contains tales too like *The Thousand and One Nights* with no prophetic content. In the Islamic world this work has been and is still read and enjoyed both as a source of religious study and for simple pleasure.

*The Oracles in the New Testament* Edward C. Selwyn, 2006-04-13

Intertextuality and comparative midrash have become important terms in contemporary biblical studies. Several generations before these explorations Selwyn was trying to pursue similar questions with regard to the use and reuse of Old Testament materials in the New. The present work is an attempt to discover the use of the Old Testament by the writers of the New. The oracles are precious words and the words in the New Testament which were precious to the writers are words of the Old Testament. They were precious because they proved the great fact that Jesus was the Christ. The proof is known generally as the Argument from Prophecy. This volume instead of being limited to the usual form of that Argument endeavours to deal with the more extended use of the Old Testament in the New for while the citation of the oracles is sometimes definite it is sometimes indefinite as in John 7:38 as the scripture saith and sometimes again where there is no mark of citation at all they are assumed by the New Testament writers to be known and whether known or not they are overwritten. If an expression in the New Testament resembles or repeats another in the Old there is a possibility which may or may not finally be raised to a certainty that the resemblance or repetition is deliberate. This book endeavours to discover the extent, the cause and the mode of that deliberation from the Preface.
