Heideggerian Marxism Herbert Marcuse, 2005-01-01 The Frankfurt School philosopher Herbert Marcuse 1898-1979 studied with Martin Heidegger at Freiburg University from 1928 to 1932 and completed a dissertation on Hegel's theory of historicity under Heidegger's supervision During these years Marcuse wrote a number of provocative philosophical essays experimenting with the possibilities of Heideggerian Marxism For a time he believed that Heidegger's ideas could revitalize Marxism providing a dimension of experiential concreteness that was sorely lacking in the German Idealist tradition Ultimately two events deterred Marcuse from completing this program the 1932 publication of Marx's early economic and philosophical manuscripts and Heidegger's conversion to Nazism a year later Heideggerian Marxism offers rich and fascinating testimony concerning the first attempt to fuse Marxism and existentialism These essays offer invaluable insight concerning Marcuse's early philosophical evolution They document one of the century's most important Marxist

philosophers attempting to respond to the crisis of Marxism the failure of the European revolution coupled with the growing repression in the USSR In response Marcuse contrived an imaginative and original theoretical synthesis existential Marxism

Rationalism, Religion, and Domination Wolfgang Schluchter, 1989-01-01 Publication of this material in English should be a major event in American Weber studies Together with *Economy and Society* Weber's comparative studies in the sociology of religion represent not only his own central contribution to theoretical sociology but also one of the most ambitious and fruitful research programs in the history of modern social theory Schluchter analyzes both of these projects and shows how they are related There is nothing in the Anglo American literature on Weber's sociology of religion that can match the rigor and thoroughness of these essays They should raise the standards of scholarly debate concerning both the general theoretical significance and the details of Weber's sociology of religion Guy Oakes Monmouth University There is next to nothing in the field of Weber interpretation that reaches the superior grasp and breadth of knowledge displayed in these essays Exciting and illuminating they should be essential reading for anyone interested in comparative religion and domination Thomas Burger Southern Illinois University

Capitalism and Classical Social Theory, Second Edition John Bratton, David Denham, 2014-01-24 Most texts on classical social theory offer exhaustive coverage of every possible theorist making it difficult to use the book in one semester *Capitalism and Classical Social Theory Second Edition* represents a departure from this approach by offering solid coverage of the classical triumvirate Marx Durkheim and Weber but also extending the canon strategically to include Simmel four early female theorists and the writings of Du Bois The result is a manageable but thorough examination of the key classical theorists The second edition has been updated throughout and includes two new chapters one on Weber and rationalization and one on Du Bois and his writings on race A new concluding chapter links classical theory to current developments in capitalism during an age of austerity
