The Master And Minerva Disputing Women In French Medieval Culture:

The Master and Minerva Helen Solterer, 1995-03-22 An examination of the verbal injury that medieval women suffered at the hands of French poets and the response of women like Christine de Pizan to such libel **Representations of Eve in Antiquity and the English Middle Ages** John Flood, 2010-12-14 As the first woman Eve was the pattern for all her daughters The importance of readings of Eve for understanding how women were viewed at various times is a critical commonplace but one which has been only narrowly investigated This book systematically explores the different ways in which Eve was understood by Christians in antiquity and in the English Middle Ages and it relates these understandings to female social roles The result is an Eve more various than she is often depicted by scholars Beginning with material from the bible the Church Fathers and Jewish sources the book goes on to look at a broad selection of medieval writing including theological works and literary texts in Old and Middle English In addition to dealing with famous authors such as Augustine Aquinas Dante and Chaucer the writings of authors who are now less well known but who were influential in their time are explored The book allows readers to trace the continuities and discontinuities in the way Eve was portrayed over a millennium and a half and as such it is of interest to those interested in women or the bible in the Middle Ages

Boccaccio's Heroines Margaret Franklin, 2017-09-29 In contrast to earlier scholars who have seen Boccaccio's *Famous Women* as incoherent and fractured Franklin argues that the text offers a remarkably consistent coherent and comprehensible treatise concerning the appropriate functioning of women in society In this cross disciplinary study of a seminal work of literature and its broader cultural impact on Renaissance society Franklin shows that through both literature and the visual arts *Famous Women* was used to promote social ideologies in both Renaissance Tuscany and the dynastic courts of northern Italy Speaking equally to scholars in medieval and early modern literature history and art history Franklin brings needed clarification to the text by demonstrating that the moral criteria Boccaccio used to judge the lives of legendary women heroines and miscreants alike were employed consistently to tackle the challenge that politically powerful women represented for the prevailing social order Further the author brings to light the significant influence of Boccaccio's text on the representation of classical heroines in Renaissance art By examining several paintings created in the republics and principalities of Renaissance Italy Franklin demonstrates that *Famous Women* was employed as a conceptual guide by patrons and artists to draw the teeth from the challenge of unconventionally powerful women by co-opting their stories into the service of contemporary Italian standards and mores Christine de Pizan Barbara K. Altmann, Deborah L. McGrady, 2020-08-11 Christine de Pizan wrote voluminously commenting on various aspects of the late medieval society in which she lived Considered by many to be the first French woman of letters Christine and her writing have been difficult to place ever since she began putting her thoughts on the page Although her work was neglected in the eighteenth and nineteenth century there has been a eruption of Christine studies in recent decades making her the perfect subject for a

casebook This volume serves as a useful guide to contemporary research exploring Christine's life and work as they reflected and influenced her socio-political milieu

Story and Philosophy for Social Change in Medieval and Postmodern

Writing Allyson Carr, 2017-10-03 This book bridges medieval and contemporary philosophical thinkers examining the relationship between fiction and philosophy for bringing about social change Drawing on the philosophical reading and writing practices of medieval author Christine de Pizan and twentieth-century philosopher Luce Irigaray and through an engagement with Hans Georg Gadamer's work on tradition and hermeneutics it develops means to re-write the stories and ideas that shape society It argues that reading for change is possible by increasing our capacity to perceive and engage tradition we become more capable of positively shaping the forces that shape us Following the example of the two women whose work it explores Story and Philosophy works through philosophy and narrative to deeply transform the allegorical political and continental tradition it engages It is essential reading for students and scholars interested in medieval studies feminist studies and critical theory

Gender, Creation Myths and their Reception in Western Civilization Lisa Maurice, Tovi Bibring, 2022-01-13 This volume offers an instructive comparative perspective on the Judaic Christian Greek and Roman myths about the creation of humans in relation to each other as well as a broad overview of their enduring relevance in the modern Western world and its conceptions of gender and identity Taking the idea that the way in which a society regards humanity and especially the roots of humanity is crucial to an understanding of that society it presents the different models for the creation and nature of mankind and their changing receptions over a range of periods and places It thereby demonstrates that the myths reflect fundamental continuities evolutions and developments across cultures and societies in no context are these more apparent than with regard to gender Chapters explore the role of gender in Graeco Roman and Judaeo Christian creation myths and their reception traditions demonstrating how perceptions of male and female dating back to antiquity have become embedded in and significantly influenced subsequent perceptions of gender roles Focusing on the figures of Prometheus Pandora Adam and Eve and their instantiations in a broad range of narratives and media from antiquity to the present day they examine how variations on these myths reflect the concerns of the societies producing them and the malleability of the stories as they are recast to fit different contexts and different audiences

La Belle Dame qui eust mercy and Le Dialogue d'amoureux et de sa dame Joan Grenier-Winther, 2018-09-28 La Belle Dame qui eust mercy and Le Dialogue d amoureux et de sa dame are two late medieval poems in which a courtly gentleman and lady debate the merits of his pleas for her affections In both cases the lady is recalcitrant dismissing her suitor's lovesickness as a trifle denying that she ever gave any sign of encouragement and wishing to protect her reputation The lady in Le Dialogue never capitulates in contrast the Belle Dame ends by agreeing to her lover's suit and imagining a future in which they will joyfully live together Both poems merit serious attention for their kinship with Alain Chartier's La Belle Dame sans mercy 1424 and other poems in the so called Belle Dame cycle Their presence in numerous fifteenth and sixteenth century manuscript and printed collections attests to their appeal in their day Equally as significant is their unusual bipartite stanzaic structure suggesting amalgamation of separate poems and or continuations of existing poems Such an anomaly complicates attribution of authorship and dating but close study of La Belle Dame qui eust mercy and Le Dialogue d amoureux et de sa dame can only enhance our understanding of the processes of poetic composition as well as the mise en page and reception of literary works in the late Middle Ages

Superior Women Jennifer C. Edwards, 2019-07-11 Superior Women examines the claims of abbesses of the abbey of Sainte Croix in medieval Poitiers to authority from the abbey's foundation to its 1520 reform These women claimed to hold authority over their own community over dependent chapters of male canons and over extensive properties in Poitou male officials such as the king of France and the pope repeatedly supported these claims To secure this support the abbesses relied on two strategies that the abbey's founder the sixth century Saint Radegund

established they documented support from a network of allies made up of powerful secular and ecclesiastical officials and they used artefacts left from Radegund's life to shape her cult and win new patrons and allies. Abbesses across the 900 years of this study routinely turned to these strategies successfully when faced with conflict from dependents or more local officials such as the bishop of Poitiers. Sainte Croix's nuns proved adept at tailoring these strategies to shifting historical contexts, turning from Frankish bishops to the kings of Frankia then to the Pope and finally to the King of France as former allies became unavailable to them. The book demonstrates respectful cooperation between men and monastic women and more extensive respect for female monastic authority than scholars typically recognize. Chapters focus on the cult's manuscripts, church decoration, procession, jurisdictions between cult institutions, reform and rebellion.
