Charles Olson

The Maximus Poems:

The Maximus Poems Charles Olson, 1983 *The Maximus Poems* is one of the high achievements of twentieth century American letters and an essential poem in the postmodern canon. It stands out in Hayden Carruth's words as a huge and truly angelic effort matching the dimensions of its hero's name and returning poetry to its Homeric and Hesiodic scope. This complete edition of *The Maximus Poems* brings together the three volumes of Charles Olson's long poem originally published in 1960, 1968, and 1975 and long out of print in an authoritative version edited according to the highest standards of textual criticism. Errors in the previous editions have been corrected, twenty-nine new poems added, and the sequence of the final poems modified in the light of the editor's research among the poet's papers. The Collected Poems of Charles Olson Charles Olson, 2023-09-01. A seminal figure in post-World War II literature, Charles Olson (1910-1970) has helped define the postmodern sensibility. His poetry is marked by an almost limitless range of interest and extraordinary depth of feeling. Olson's themes are among the largest conceivable: empowering love, political responsibility, historical discovery, and cultural reckoning; the wisdom of dreams and the transformation of consciousness, all carried in a voice both intimate and grand, American and timeless, impassioned and coolly demanding. Until recently, Olson's reputation as a major figure in American literature has rested primarily on his theoretical writings and his epic work, *The Maximus Poems*. With *The Collected Poems*, an even more impressive Olson emerges. This volume brings together all of Olson's work and extends the poetic accomplishment that influenced a generation. Charles Olson was praised by his contemporaries and emulated by his successors. He was declared by William Carlos Williams to be a major poet with a sweep of understanding of the world, a feeling for other men that staggers me. His indispensable essays, *Projective Verse* and *Human Universe*, and his study of Melville, *Call Me Ishmael*, remain as fresh today as when they were written.
