The Meaning And Method Of Mysticism:

The Meaning and Method of Mysticism Annie Wood Besant, 2005-12 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work **The Meaning and Value of Mysticism** Emily Herman, 1916 **The Jewish Theosophist** , 1926 Mysticism Annie Besant, 1914 **Dictionary of Mysticism** Frank Gaynor, 2018-06-19 More than 2 200 terms defined in an essential reference on religious mysticism esoteric philosophy occultism and more Dictionary of Mysticism provides concise definitions for more than 2 200 terms used in many philosophies religions and doctrines which relate to the influence of the superhuman and supernatural on man s everyday life Terms relating to esoteric philosophy occultism religious mysticism spiritualism alchemy and psychical research are defined Particular attention is given to the Eastern philosophies of Buddhism Brahmanism Sufism Lamaism Zoroastrianism Theosophy and Cabbalism Also included are terms used in magic and demonology **Religious Experience and Scientific Method** Henry Nelson Wieman, 1926 **Practical Mysticism in Islam and Christianity** Saeed Zarrabi-Zadeh, 2016-01-29 Practical Mysticism in Islam and Christianity offers a comparative study of the works of the Sufi poet Jalal al Din Rumi 1207 1273 and the practical teachings of the German Dominican Meister Eckhart c1260 1327 8 Rumi has remained an influential figure in Islamic mystical discourse since the thirteenth century while also extending his impact to the Western spiritual arena However his ideas have frequently been interpreted within the framework of other mystical philosophical or religious systems Through its novel approach this book aims to reformulate Rumi s practical mysticism by employing four methodological principles a mysticism is a coherent structure with mutual interconnection between its parts b the imposition of alien structures to interpret any particular mysticism damages its inward coherency c practical mysticism consists of two main parts namely practices and stages and d the proper use of comparative methodology enables a deeper understanding of each juxtaposed system Eckhart s speculative mysticism which differs from and enjoys similarities with the love based mysticism of Rumi provides a mirror that highlights the special features of Rumi s practical mysticism Such comparison also allows a deeper comprehension of Eckhart s practical thought Offering a critical examination of practical mysticism this book is a valuable resource for students and scholars of Islamic studies comparative mysticism and the intellectual history of Islam Humanistic Psychology Joseph Royce, 2012-12-06 THE FORMATIVE TENDENCY I have often pointed out that in my work with individuals in therapy and in my experience in encounter groups I have been led to the conviction that human nature is essentially constructive When in a therapeutic climate which can be objectively defined a person becomes sharply aware of more of his or her internal experiencing and of the stimuli and demands from the external world thus acquiring a full range of options the person tends to move in the

direction of becoming a socially constructive organism But many are critical of this point of view Why should such a positive direction be observed only in humans Isn't this just pure optimism So quite hesitantly because I have to draw on the work and thinking of others rather than on my own experience I should like to try to set this directional tendency in a much broader context I shall draw on my general reading in the field of science but I should like to mention a special indebtedness to the work of Lancelot Whyte in *The Universe of Experience* Harper and Row 1974 the last book he wrote before his death Though the book has flaws in my judgment this historian has some thought provoking themes to advance I have learned from many others as well The Divine Wisdom as Revealed by the Methods of Christ and of the Spirit, Manifesting the Harmony and Unity in Nature, Man & the Bible John Coutts, 1907 **Mysticism in Judaism, Christianity, and Islam** Ori Z. Soltes, 2009 Throughout the ages and across religious traditions people have yearned to personally experience God and deeply connect with the Creator In *Mysticism in Judaism Christianity and Islam* Ori Z Soltes traces the sweep of mysticism this search for oneness with God throughout the three Abrahamic traditions This unique comparative overview begins with a definition of mysticism and a discussion of its place within religion as a whole Soltes then explores the history of mysticism from Biblical times through the present day highlighting the emergence of mysticism within the three traditions and how beliefs and practices converge and diverge over time The final chapters discuss the growing interest in mysticism today through practices such as Kabbalah and how people publicly express their private encounters with God through art literature and other modern media
