Rosenfeld,2019-03-14 The first history of postwar fears of a Nazi return to power in Western political intellectual and cultural life      **The Third Reich's Elite Schools** Helen Roche,2021 The Third Reich s Elite Schools tells the story of the Napolas Nazi Germany s most prominent training academies for the future elite This deeply researched study gives an in depth account of everyday life at the schools while also shedding fresh light on the political social and cultural history of the Nazi dictatorship      *Heaven on Earth* Richard Landes,2011-08-04 A comprehensive examination of millennialism the belief that the grandest events of history and the cosmos will occur soon and suddenly whether as a religious d nouement with the coming of the Last Days or as a final social solution to resolve the human predicament forever Through analysis of diverse cases throughout history Richard Landes demonstrates that millennialism has been deliberately downplayed and even ignored by historians and shows that millenarian beliefs have played a role in many supposedly secular events movements and periods including modernity

**Theories of the Information Society** Professor Frank Webster, Frank Webster,2002-05-03 Information has come to be regarded as a symbol of the age in which we live Talk nowadays is of an information technology revolution even of an information society But just what does this mean In Theories of the Information Society Frank Webster sets out to make sense of the information explosion He examines and assesses a variety of images of the information society and takes a sceptical look at what thinkers mean when they do refer to an information society He looks closely at different approaches to informational developments and provides critical commentaries on all the major post war theories      After the Thousand Years J. Webb Mealy,1992-03-01 A fresh and highly illuminating approach to what is perhaps the most difficult chapter in the most difficult book of the New Testament Mealy employs a carefully developed methodology which draws fully on the special literary techniques of Revelation particularly its extensive use of internal cross references multivalent images and symbols and complex Old Testament reminiscences With its central thesis that Revelation 20 7 10 and 20 11 15 offer parallel representations of the resurrection and final judgment of the unrepentant this study is destined to become a benchmark for future discussions not only of the millennium but of the literary workings of Revelation as a whole      *Theories of the Information Society* Frank Webster,2007-01-24 Coping in an era of information flows of virtual relationships and breakneck change poses challenges to one and all In Theories of the Information Society Frank Webster makes sense of the information explosion taking a sceptical look at what thinkers mean when they refer to the Information Society and critically examines the major post war theories and approaches to informational development This third edition brings the book right up to date with both new theoretical work and social and technological changes such as the rapid growth of the Internet and accelerated globalization reassessing the work of key theorists in light of these changes This book is essential reading for students of contemporary social theory and anybody interested in social and technological change in the post war era It

compelling account of years of spiritual investigations from the director of Life After Life the award winning documentary on near death experiences The stories of divine intervention in people's everyday lives continued to occupy Peter Shockey's thoughts even after his documentaries on the subject for Hallmark Channel and Discovery's TLC had been completed and garnered awards and international acclaim In *Miracles Angels Afterlife* Shockey shares the most compelling accounts he has gathered during his years of spiritual investigations and offers profound insight into what the increasing presence of the divine in daily life can mean in this the first generation of the third millennium Beginning with his own personal story Shockey goes on to introduce others who relate their miraculous experiences ranging from visions of heaven to the presence of angels He then puts these encounters in an enlightening context as he explores striking patterns of divine intervention in human history as well as in the Bible In doing so he takes readers on an unforgettable spiritual odyssey that will change the way they look at the here and now and the hereafter      *A Conservative History of the American Left* Daniel J.

Flynn, 2008-04-29 From Communes to the Clintons Why does Hillary Clinton crusade for government provided health care for every American for the redistribution of wealth and for child rearing to become a collective obligation Why does Al Gore say that it's okay to over represent the dangers of global warming in order to sell Americans on his draconian solutions Why does Michael Moore call religion a device to manipulate gullible Americans Where did these radical ideas come from And how did they enter the mainstream discourse In this groundbreaking and compelling new book Daniel J Flynn uncovers the surprising origins of today's Left The first work of its kind *A Conservative History of the American Left* tells the story of this remarkably resilient extreme movement one that came to America's shores with the earliest settlers Flynn reveals a history that leftists themselves ignore whitewash or obscure Partly the Left's amnesia is convenient Who wouldn't want to forget an ugly history that includes eugenics racism violence and sheer quackery Partly it is self aggrandizing Bold schemes sound much more innovative when you refuse to acknowledge that they have been tried and have failed many times before And partly it is unavoidable The Left is so preoccupied with its triumphal future that it doesn't pause to learn from its past mistakes So it goes that would be revolutionaries have repeatedly failed to recognize the one troubling obstacle to their grandiose visions reality In unfolding this history Flynn presents a page turning narrative filled with colorful fascinating characters progressives and populists radicals and reformers socialists and SDSers and leftists of every other stripe There is the rags to riches Welsh industrialist who brought his utopian vision to America one in which private property religion and marriage represented the most monstrous evils and gained audiences with the likes of Thomas Jefferson John Adams and James Madison There is the wife swapping Bible thumper who nominated Jesus Christ for president There is the playboy adventurer whose worshipful accounts of Soviet Russia lured many American liberals to Communism There is the daughter of privilege

turned violent antiwar activist who lost her life to a bomb she had intended to use against American soldiers There are fanatics and free spirits perverts and puritans entrepreneurs and altruists and many more beyond A Conservative History of the American Left is a gripping chronicle of the radical visionaries who have relentlessly pursued their lofty ambitions to remake society Ultimately Flynn shows the destructiveness that comes from this undying pursuit of dreams that are utterly unattainable Global Values 101 Ann S. Kim, Kate Holbrook, Brian Palmer, 2006-02-01 Global Values 101 grew out of one of the most popular courses ever offered at Harvard University in which some of the most original thinkers of our day sat down with students and explored how ideas have made them and can make us more engaged involved and compassionate citizens In these engrossing essay length interviews which address the topics of war religion the global economy and social change Amy Goodman host of the popular radio program Democracy Now speaks about the role of the independent media as gatekeeper and witness Lani Guinier author of Tyranny of the Majority reveals that students SAT scores more accurately describe the kind of car their parents drive than the grades they will earn in college and shows the way to a more equitable college admissions system Howard Zinn author of A People s History of the United States explores the American Dream and exposes the myth of the good war economist Juliet Schor author of Born to Buy and The Overspent American explains why Americans are willing to sacrifice quality of life to attain financial success former mall rat Naomi Klein author of No Logo Taking Aim at the Brand Bullies urges readers to go global while fighting global conglomerates and Katha Pollitt author of Reasonable Creatures Essays on Women and Feminism employs her incisive wit to explore what it really means to be a feminist in the Twenty First century For anyone who has been moved by idealism and longed to become a more proactive citizen this collection offers a range of stories on how progressive ethics can inform inspire and ultimately transform lives
