Reducing Gun Violence in America presents compelling evidence that stronger purchasing laws and better enforcement of these laws result in lower gun violence Additional material for this edition includes an introduction by Michael R Bloomberg and Consensus Recommendations for Reforms to Federal Gun Policies from the Johns Hopkins University Gun Sense Mark Shean Sr,2019-06-21 From the ForewordMark Shean s Gun Sense is in reality a series of numbered and un numbered articles assembled into a book In 2018 after one of Mark s License to Carry LTC classes he was talking about wanting to take his blog and turn it into an E book There was a desire to be able to reach a wider audience and make it easier for his students to follow along with him review the material Mark Shean comes to readers with a combination of over 55 years of firearms NRA LE Instructor and Nuclear security experience Though originally from Maine Mark has been teaching the Massachusetts gun law class since 2000 Gun Sense is not so much a book you read from the first page to the last even though you could and should as much as it is a guide to topics on gun safety Massachusetts gun law your general rights as an American op eds and so on and so forth that can apply anywhere The synergy of this work is that Mark just started writing these articles as the topics came to him These are ideas that came to him in the order that they are presented here over years There are sections that are redundant and cover the same material over again for a reason In compiling the over 50 independent pieces we have tried to lend some help in organization by referencing other Gun Sense chapters which would give you more information on a certain subject Chances are if you have a question when reading Gun Sense or taking Mark s class the question will be answered by the time you finish reading the book or sitting in on the class The good news is that Mark is a tangible and accessible guy All you have to do is find his contact information at the end of this book in the About the Author section and if you have any questions comments concerns or general correspondence Mark would be happy to field them Also if you are reading this book as a companion to his class that is awesome and you ll find having this text handy while in class or before after class will help reinforce the lessons he teaches If you are reading this book and are thinking that you want some training all the better Reach out to Mark and he d be happy to talk to you about a training session or teaching you the required class to obtain a Massachusetts Firearms Identification Card FID or License to Carry LTC Included are Appendixes with helpful information and plenty of citations through the text At the time of this writing everything was accurate and up to date but that does not mean it so shall remain Concerning Chapter 140 of Massachusetts General Law and also 527 Code of Massachusetts Regulations be advised this is all subject to change so always cross reference and ensure you have the up to date regulations As with all citations and references in this text they can and will change over time
