Cohen,2013-12-11 It has been

15 years since the original publication of *Neuropsychology of Attention*. At the time of its publication, attention was a construct that had long been of theoretical interest in the field of psychology and was receiving increased research by cognitive scientists. Yet attention was typically viewed as a nuisance variable, a factor that needed to be accounted for when assessing brain function but of limited importance in its own right. There is a need for a new edition of this book within *Neuropsychology* to present an updated and integrated review of what is known about attention, the disorders that affect it, and approaches to its clinical assessment and treatment. Such a book will provide perspectives for experimental neuropsychological study of attention and also provide clinicians with insights on how to approach this neuropsychological domain.

Commonwealth Caribbean Tort Law Gilbert Kodilinye, 2014-08-13 Tort law is a subject of primary importance in the study and practice of the common law in Caribbean jurisdictions. This work is now well established as the leading text on tort law in the region and this fifth edition has been updated throughout to incorporate developments in law and legal thinking, including special contributions on medical negligence and the misuse of private information from the Hon Justice Roy Anderson and Dr Vanessa Kodilinye. The accessible writing style and integration of up-to-date material enables students to grasp the salient points and develop a thorough understanding of Tort Law in the Caribbean. Although conceived primarily as a text for the LLB degree courses in Caribbean universities, *Commonwealth Caribbean Tort Law* is also essential reading for students preparing for the CAPE Law examinations and the various paralegal courses in the region. Legal practitioners will find the book useful as a work of ready reference and it will also be of interest to those business executives, industrialists, insurance agents and journalists who require some knowledge of this most important area of the law.
