Archaeological and Natural History Society Somersetshire Archaeological and Natural History Society, 1910 **The Birds of Somersetshire** Cecil Smith, 1869 Conspiracy Culture in Stuart England Andrea McKenzie, 2022 The death of Sir Edmund Berry Godfrey has baffled scholars and armchair detectives for centuries this book offers compelling new evidence and at last a solution to the mystery On a cold October afternoon in 1678 the Westminster justice of the peace Sir Edmund Berry Godfrey left his home in Charing Cross and never returned Within hours of his disappearance London was abuzz with rumours that the magistrate had been murdered by Catholics in retaliation for his investigation into a supposed Popish Plot against the government Five days later speculation morphed into a moral panic after Godfrey's body was discovered in a ditch impaled on his own sword in an apparent clumsily staged suicide This book presents an anatomy of a conspiratorial crisis that shook the foundations of late Stuart England eroding public faith in authority and official sources of information Speculation about Godfrey's death dovetailed with suspicions about secret diplomacy at the court of Charles II contributing to the emergence of a partisan press and an oppositional political culture in which the most fantastical claims were not only believable but plausible Ultimately conspiracy theories implicating the king's principal minister his queen and his brother in Godfrey's murder stoked the passions and divisions that would culminate in the Exclusion Crisis the most serious challenge to the British monarchy since the Civil War
