The Masks of Dionysos Daniel E. Anderson, 1993-01-01 The metaphysical center of Plato's work has traditionally been taken to be his Doctrine of Forms the epistemological center the Doctrine of Recollection The Symposium has been viewed as one of the clearest explanations of the first and Meno as one of the clearest explanations of the other The Masks of Dionysos challenges these traditional interpretations

The Sanctuary of Demeter and Kore Sonia Klinger, 2022-01-03 This volume presents the terracotta miscellaneous finds from the Sanctuary of Demeter and Kore at Acrocorinth The finds comprise 21 classes including protomes and masks altars plaques models of various personal and household items and loomweights and other textile tools the latter initially studied by Gloria S Merker and brought to publication by Nancy Bookidis In addition to providing a catalogue of the finds arranged according to their subjects the authors compare these finds with similar objects found elsewhere in Greece and refer to literary epigraphical and visual sources to understand their possible uses and meanings and the character of religious activity that may have triggered their dedication in the sanctuary This volume will greatly facilitate comparative studies of ancient Greek miscellaneous finds and will be an important reference for historians of Greek art as well as of Greek religion

Mosaics of the Greek and Roman World Katherine M. D. Dunbabin, 1999 This book provides a comprehensive account of mosaics in the ancient world from the early pebble mosaics of Greece to the pavements of Christian churches in the East Separate chapters in Part I cover the principal regions of the Roman Empire in turn in order to bring out the distinctive characteristics of their mosaic workshops Questions of technique and production of the role of mosaics in architecture and of their social functions and implications are treated in Part II The book discusses both well known works and recent finds and balances consideration of exceptional masterpieces against standard workshop production Two main lines of approach are followed throughout first the role of mosaics as a significant art form which over an unbroken span illuminates the evolution of pictorial style better than any comparable surviving medium and secondly their character as works of artisan production closely linked to their architectural context

California studies in classical antiquity, 1970 **Tragic Props and Cognitive Function** Colleen Chaston, 2010 By applying aspects of cognitive psychology to a study of three key tragic props this book examines the importance of visual imagery in ancient Greek tragedy The shield the urn and the mask are props which serve as controls for investigating the connection between visual imagery and the spectators intellectual experience of tragic drama As vehicles for conceptual change the props point to a function of imagery in problem solving Connections between the visual and the cognitive in tragedy particularly through image shape and its potential for various meanings add a new perspective to scholarship on the

role of the visual in ancient performance These connections also add weight to the importance of imagery in contemporary problem solving and creative thought
