Beyond the May Fourth Paradigm Kai-wing Chow, 2008-01-01 *Beyond the May Fourth Paradigm* explores various dimensions of modern Chinese culture ranging from literature, thought and music to scientific research, business and everyday life. By heeding how the May Fourth and non-May Fourth groups depended on each other and joined forces in creating Chinese modernity, this anthology points to the significant directions that Chinese historical actors chose as they competed but also collaborated in modernizing themselves, their culture and the nation.

The Appropriation of Cultural Capital Milena Doleželová-Velingerová, 2001 The authors of this volume seek to approach the May Fourth movement of 1919 from novel perspectives and contribute to the ongoing critique of the movement. The essays are centered on the intellectual and cultural historical motivations and practices behind May Fourth discourse.

A Nation-State by Construction Suisheng Zhao, 2004 This is the first historically comprehensive up-to-date analysis of the causes, content and consequences of nationalism in China, an ancient empire that has struggled to construct a nation-state and find its place in the modern world.

It shows how Chinese political elites have competed to promote different types of nationalism linked to their political values and interests and imposed them on the nation while trying to repress other types of nationalism. In particular, the book reveals how leaders of the PRC have adopted a pragmatic strategy to use nationalism while struggling to prevent it from turning into a menace rather than a prop.
