The Medievals:

The Medieval Christian Philosophers Richard Cross, 2013-11-19 The High Middle Ages were remarkable for their coherent sense of Christendom of people who belonged to a homogeneous Christian society marked by uniform rituals of birth and death and worship That uniformity which came under increasing strain as national European characteristics became more pronounced achieved perhaps its most perfect intellectual expression in the thought of the western Christian thinkers who are sometimes called scholastic theologians These philosophers produced during roughly the period 1050 1350 CE a cohesive body of work from their practice of theology as an academic discipline in the university faculties of their day Richard Cross elegant and stylish textbook designed specifically for modern day undergraduate use on medieval theology and philosophy courses offers the first focused introduction to these thinkers based on the individuals themselves and their central preoccupations The book discusses influential figures like Abelard Peter Lombard and Hugh of St Victor the use made by Aquinas of Aristotle the mystical theology of Bonaventure Robert Grosseteste s and Roger Bacon s interest in optics the complex metaphysics of Duns Scotus and the political thought of Marsilius of Padua and William of Ockham Key themes of medieval theology including famous axioms like Ockham s Razor are here made fully intelligible and transparent **Art and Beauty in the Middle Ages** Umberto Eco, 2002-01-01 In this authoritative lively book the celebrated Italian novelist and philosopher Umberto Eco presents a learned summary of medieval aesthetic ideas Juxtaposing theology and science poetry and mysticism Eco explores the relationship that existed between the aesthetic theories and the artistic experience and practice of medieval culture A delightful study Eco s remarkably lucid and readable essay is full of contemporary relevance and informed by the energies of a man in love with his subject Robert Taylor Boston Globe The book lays out so many exciting ideas and interesting facts that readers will find it gripping Washington Post Book World A lively introduction to the subject Michael Camille The Burlington Magazine If you want to become acquainted with medieval aesthetics you will not find a more scrupulously researched better written or better translated intelligent and illuminating introduction than Eco s short volume D C Barrett Art Monthly *The Medieval World* Peter Linehan, Janet L. Nelson, 2013-09-13 This groundbreaking collection brings the Middle Ages to life and conveys the distinctiveness of this diverse constantly changing period Thirty eight scholars bring together one medieval world from many disparate worlds from Connacht to Constantinople and from Tynemouth to Timbuktu This extraordinary set of reconstructions presents the reader with a vivid re drawing of the medieval past offering fresh appraisals of the evidence and modern historical writing Chapters are thematically linked in four sections identities beliefs social values and symbolic order power and power structures elites organizations and groups Packed full of original scholarship *The Medieval World* is essential reading for anyone studying medieval history *The Medieval Way of War* Gregory I. Halfond, 2016-03-09 Few historians have argued so forcefully or persuasively as Bernard S Bachrach for the study of warfare as not only worthy of scholarly attention but demanding of it In his many publications

Bachrach has established unequivocally the relevance of military institutions and activity for an understanding of medieval European societies politics and mentalities In so doing as much as any scholar of his generation he has helped to define the status quaestionis for the field of medieval military history The Medieval Way of War Studies in Medieval Military History in Honor of Bernard S Bachrach pays tribute to its honoree by gathering in a single volume seventeen original studies from an international roster of leading experts in the military history of medieval Europe Ranging chronologically from Late Antiquity through the Later Middle Ages ca AD 300 1500 and with a broad geographical scope stretching from the British Isles to the Middle East these diverse studies address an array of critical themes and debates relevant to the conduct of war in medieval Europe These themes include the formation and implementation of military grand strategies the fiscal material and administrative resources that underpinned the conduct of war in medieval Europe and religious legal and artistic responses to military violence Collectively these seventeen studies embrace the interdisciplinarity and topical diversity intrinsic to Bachrach s research Additionally they strongly echo his conviction that the study of armed conflict is indispensable for an accurate and comprehensive understanding of medieval European history

The Medieval Medea Ruth Morse,1996 Wide ranging study of the myth of Medea concentrating on but not exclusively confined to its medieval incarnation

The Medieval Greek Romance Roderick Beaton,1996 An essential introductory account of Greek fiction during the period 1071 1453 The argument is illustrated by lucid plot summaries and extensive quotations with literal English renderings Now revised and expanded with an essay on recent work

Handbook to Life in the Medieval World, 3-Volume Set Madeleine Pelner Cosman,Linda Gale Jones,2009 Presents a three volume set that examines the medieval civilizations of the Muslims Jews and Christians including history economics medicine technology art literature and clothing

The Medieval Networks in East Central Europe Balazs Nagy,András Vadas,Felicita Schmieder,2018-11-09 Medieval Networks in East Central Europe explores the economic cultural and religious forms of contact between East Central Europe and the surrounding world in the eight to the fifteenth century The sixteen chapters are grouped into four thematic parts the first deals with the problem of the region as a zone between major power centers the second provides case studies on the economic and cultural implications of religious ties the third addresses the problem of trade during the state formation process in the region and the final part looks at the inter and intraregional trade in the Late Middle Ages Supported by an extensive range of images tables and maps Medieval Networks in East Central Europe demonstrates and explores the huge significance and international influence that East Central Europe held during the medieval period and is essential reading for scholars and students wishing to understand the integral role that this region played within the processes of the Global Middle Ages
