The Mermaid And The Minotaur Sexual Arrangements And Human Malaise:

The Mermaid and The Minotaur Dorothy Dinnerstein, 2021-01-12 A seminal text in the women's movement Ethel S. Person author of *The Sexual Century* Still the most important work of feminist psychoanalytic exploration its re-release is a celebratory occasion Eli Sagan author of *Freud Women and Mortality* *The Mermaid and the Minotaur* continues to astonish us with the depth and wisdom of its psychoanalytic approach even as its major ideas have become as unobtrusively essential to psychoanalytic feminism as the atmosphere Jessica Benjamin author of *The Bonds of Love* [Over Dorothy Dinnerstein's 'The mermaid and the minotaur'](#) Sylvie, 1980 *The Changing American Family and Public Policy* Andrew J. Cherlin, 1988 This book brings social science perspective to bear on family change and family policy identifies the determinants of change and analyzes the role that government has played and can play in affecting the course of family life **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1979 [The Artful Species: Aesthetics, Art, and Evolution](#) Stephen Davies, 2012-11-29 *The Artful Species* explores the idea that our aesthetic responses and art behaviors are connected to our evolved human nature Our humanoid forerunners displayed aesthetic sensibilities hundreds of thousands of years ago and the art standing of prehistoric cave paintings is virtually uncontested In Part One Stephen Davies analyses the key concepts of the aesthetic art and evolution and explores how they might be related He considers a range of issues including whether animals have aesthetic tastes and whether art is not only universal but cross culturally comprehensible Part Two examines the many aesthetic interests humans take in animals and how these reflect our biological interests and the idea that our environmental and landscape preferences are rooted in the experiences of our distant ancestors In considering the controversial subject of human beauty evolutionary psychologists have traditionally focused on female physical attractiveness in the context of mate selection but Davies presents a broader view which decouples human beauty from mate choice and explains why it goes more with social performance and self presentation Part Three asks if the arts together or singly are biological adaptations incidental byproducts of non-art adaptations or so removed from biology that they rate as purely cultural technologies Davies does not conclusively support any one of the many positions considered here but argues that there are grounds nevertheless for seeing art as part of human nature Art serves as a powerful and complex signal of human fitness and so cannot be incidental to biology Indeed aesthetic responses and art behaviors are the touchstones of our humanity **The Utopian Moment in Contemporary American Poetry** Norman Finkelstein, 1988

Christians, Feminists, and the Culture of Pornography Arthur J. Mielke, 1995 In this pioneering study in religion and culture Mielke acknowledges the power that pornographic images continue to assert in a culture whose conscious intention is to deny their attraction Despite efforts by Christians and feminists alike to radically alter the sexual agenda in the direction of a more tender and respectful eroticism much of contemporary America continues its sexual odyssey with unrepentant enthusiasm and with an increasing interest in overt sexual imagery Mielke's unique analysis brings together a wide range of

sources contemporary as well as historical Christianity sex therapy secular feminism contemporary psychoanalysis and behavioral science research studies in an attempt to explain the prevalence of pornographic themes and imagery in human sexual arousal and fulfillment Contents Preface Acknowledgements Introduction The Problematic Place of Pornography in Culture Sexual Liberalism in America Feminists Confront Pornography Christian Perspectives on Sex and Pornography The Dynamics of Sexual Excitement The Research of Robert J Stoller M D Pornography's Challenge to Theology Bibliography Readings for Further Study Index

Probing the Mind to Free the Soul Stephen G. Fowler, 2017-05-25 Christian theology presents an overly simplistic portrayal of the mind and nature of man his needs his longings his beliefs and his aspirations for God A psychoanalytic protest theology aims at bringing psychoanalytic complexity regarding the mind to theology Organized Christianity has failed to account for how the unconscious influences interpretations of Scripture and also how application of Scripture to lived life can be damaging if complex unconscious factors are not considered in theology This book attempts to employ psychoanalytic insights in the exploration of critically important themes addressed by theology Among them morality and conscience autonomy and destiny and relationship and sexuality including the sexuality of God suffering and law along with its correlation with death This is intended to serve an integrative constructive purpose Both classical psychoanalysis and Christian Scriptures conceptualize sexuality in its large sense as residing at the core of the mind of mankind Christianity has tended to cope with sexuality by adopting a notion of attainable sexual purity a myth that this work seeks to expose and dismantle with a view to enabling the church to more effectively and compassionately engage with real people whose sexuality is characteristically complicated and troublesome
