### **The Million Man March Day Of Absence Mission Statement:**

*Million Man March/Day of Absence* Haki R. Madhubuti, Karenga (Maulana.), 1996 A commemorative anthology speeches commentary photography poetry illustrations documents      **Achieving Blackness** Algernon Austin, 2006-04-10 Achieving Blackness offers an important examination of the complexities of race and ethnicity in the context of black nationalist movements in the United States By examining the rise of the Nation of Islam the Black Power Movement of the 1960s and 1970s and the Afrocentric era of the 1980s through 1990s Austin shows how theories of race have shaped ideas about the meaning of Blackness within different time periods of the twentieth century Achieving Blackness provides both a fascinating history of Blackness and a theoretically challenging understanding of race and ethnicity Austin traces how Blackness was defined by cultural ideas social practices and shared identities as well as shaped in response to the social and historical conditions at different moments in American history Analyzing black public opinion on black nationalism and its relationship with class Austin challenges the commonly held assumption that black nationalism is a lower class phenomenon In a refreshing and final move he makes a compelling argument for rethinking contemporary theories of race away from the current fascination with physical difference which he contends sweeps race back to its misconceived biological underpinnings Achieving Blackness is a wonderful contribution to the sociology of race and African American Studies

**The Lost-Found Nation of Islam in America** Clifton E. Marsh, 2000-03-22 This important work on American Black Islam previously published in cloth is now available in trade paperback With the 1995 Million Man March in Washington the Nation of Islam and its often controversial leader Minister Louis Farrakhan have reemphasized their importance as a major voice of the African American community Marsh examines the rise fall and rebirth of the oldest most powerful and significant Black nationalist organization in the United States New chapters focus on the ideological splits in the Nation of Islam during the 1970s the growth of the Nation in the 1980s and the expanding influence and power of the organization in the 1990s A key chapter examines the continuing legacy of African nationalist thought from 1815 to 1994 places Farrakhan in historical context and examines his addition to the African nationalist legacy of Marcus Garvey and W E B DuBois The appendixes include interviews with important members of the Nation of Islam Imam Wallace D Muhammad son of Elijah Muhammad and Dr Abdul Alim Muhammad the national spokesman for minister Louis Farrakhan of the Nation of Islam and a directory of Masjids in the United States and abroad With bibliography and index      African Intellectual Heritage Abu Sharrow Abarry, 1996 Organized by major themes such as creation stories and resistance to oppression this collection gather works of imagination politics and history religion and culture from many societies and across recorded time Asante and Abarry marshal together ancient anonymous writers whose texts were originally written on stone and papyri and the well known public figures of more recent times whose spoken and written words have shaped the intellectual history of the diaspora Within this remarkably wide ranging volume are such sources as prayers and praise songs from ancient Kemet and Ethiopia

along with African American spirituals political commentary from C L R James Malcolm X Mary McLeod Bethune and Joseph Nyerere stirring calls for social justice from David Walker Abdias Nascimento Franz Fanon and Martin Luther King Jr Featuring newly translated texts and documents published for the first time the volume also includes an African chronology a glossary and an extensive bibliography With this landmark book Asante and Abarry offer a major contribution to the ongoing debates on defining the African canon Author note Molefi Kete Asante is Professor and Chair of African American Studies at Temple University and author of several books including *The Afrocentric Idea* Temple and *The Historical and Cultural Atlas of African Americans* Abu S Abarry is Assistant Chair of African American Studies at Temple University

**Contours of African American Politics** Georgia A. Persons, 2017-07-05 *Contours of African American Politics* chronicles the systematic study of African American politics and its subsequent recognition as an established field of scholarly inquiry African American politics emanates from the demands of the prolonged struggle for black liberation and empowerment Hence the study of African American politics has sought to track codify and analyse the struggle that has been mounted and to understand the historic and changing political status of African Americans within American society This two volume set presents a selection of scholarship on African American politics as it appeared in *The National Political Science Review* from its initial launch in 1989 to the spring of 2009 Represented are contributions from some of the leading scholars of African American politics who have helped to establish and sustain the field The volumes are organised around themes that derive from the unfolding real life drama of African American politics and its subsequent scholarly treatment The result is a window into the political efforts that meld the historically disparate strands of black political expressions into a reconstructed and strategically nimble electoral based mass mobilisation necessary for optimising the impact of the African American vote Sections in the volumes also chronicle the evolution of the National Conference of Black Political Scientists as a professional organisation The two volumes illuminate a pivotal epoch in black political empowerment and provide a context for the future of black politics

*The Politics of the Black Nation* Georgia A. Persons, 2017-07-12 This volume of the *National Political Science Review* the official publication of the National Political Science Association is anchored by a major symposium on *The Politics of the Black Nation* the book authored by Matthew Holden in 1973 which is now considered one of the most influential books in the field of black politics Twenty five years provide a sufficient timespan on which to base a retrospective of the book and simultaneously to reflect upon the evolution of the black liberation struggle more formally called African American politics In the present age there is not much talk about a black nation certainly not as was heard during the 1960s and mid 1970s Yet there is a persistent sense of separateness in that there is constant thought and talk of Black America as a significantly separate communal entity Black Americans are seen as a racially and culturally distinct community holding to social political economic interests which have special significance and poignancy for them Holden's perception of the nature of the times in the early seventies stands in sharp contrast to how contemporary analysts of African American politics tend to

perceive the nature of African Americans role in political life and their position in American society in the present age In this retrospective readers have the opportunity to get a sense of what Holden argued of the seven essays that make up his seminal volume and to consider how well Holden s observations have stood the tests of time In addition to the essays presented at the symposium which pointedly discuss Holden s work there are essays dealing with African American Politics in Constancy and Change by contributors including Charles Henry David Covin Robert C Smith Clyde Lusane Cheryl Miller D Linell Finley and Sekou Franklin among others Other features are a highly informative discussion of the Literary Digest magazine s Straw Vote Presidential Polls 1916 1936 and a African American Leadership Ronald W. Walters,Robert C. Smith,1999-04-01 Written by two of the nation s preeminent scholars on the topic this book provides a panoramic overview of black leadership in the United States

**What it Means to be Daddy** Jennifer Hamer,2001 Absent fathers and households headed by single mothers are frequently blamed for the poor quality of life of African American children This book challenges these assumptions arguing that they are largely an unfair reflection of non working class white American values Hamer places the behaviors of black non custodial fathers in their social political and economic contexts and describes these fatherless families from the perspectives of the families themselves

**Handbook of Black Studies** Molefi Kete Asante,Maulana Karenga,2006 Publisher Description

**Dispatches from the Ebony Tower** Manning Marable,2001-03-01 What constitutes black studies and where does this discipline stand at the end of the twentieth century In this wide ranging and original volume Manning Marable one of the leading scholars of African American history gathers key materials from contemporary thinkers who interrogate the richly diverse content and multiple meanings of the collective experiences of black folk Here are numerous voices expressing very different political cultural and historical views from black conservatives to black separatists to blacks who advocate radical democratic transformation Here are topics ranging from race and revolution in Cuba to the crack epidemic in Harlem to Afrocentrism and its critics All of these voices however are engaged in some aspect of what Marable sees as the essential triad of the black intellectual tradition describing the reality of black life and experiences critiquing racism and stereotypes or proposing positive steps for the empowerment of black people

Highlights from Dispatches from the Ebony Tower Henry Louis Gates Jr and Manning Marable debate the role of activism in black studies John Hope Franklin reflects on his role as chair of the President s race initiative Cornel West discusses topics that range from the future of the NAACP through the controversies surrounding Louis Farrakhan and black nationalism to the very question of what race means Amiri Baraka lays out strategies for a radical new curriculum in our schools and universities Marable s introduction provides a thorough overview of the history and current state of black studies in America
