Skills in Business Johnny Sung, David N Ashton, 2014-11-03 Johnny Sung and David Ashton are two of the leading scholars in the area of skills This book combines challenging theories with cutting edge research in a way that should bring skills to life for students I strongly recommend it for anyone researching or studying in this area Irena Grugulis Leeds University Business School A much needed contribution to the complex debate of how skills can best be utilised to enhance company performance with particular emphasis on an innovative sectoral approach It is a model of clarity in its presentation of the authors conceptual models using a historical narrative as well as comparative case studies in both the UK and Singapore Bert Clough Leeds University Business School Public skills policy in most market economies in the last forty years made one repeated error time and again We seem to be unable to learn from those mistakes Consistently public policies view a wide range of economic and social issues e g low productivity low skilled jobs low wage inequality and in work poverty as the consequence of skills deficits and a lack of qualifications held by individual workers Whilst mis diagnosing the source of the problems and failing to deliver any effective change public skills policies continue with a policy prescription of more skills and more degrees If we have not solved the problems with this decade old approach why should the same medicine work this time This book examines the role of public skills policy from a completely different perspective It starts by challenging the lack of a systematic analysis of the link between skills utilisation and business strategy and provides a new model for fresh thinking The book extends this theoretical analysis to examine the implications for the sectoral approach to skills development as a more effective form of public skills policy David N Ashton is Emeritus Professor at the University of Leicester and Honorary Professor at Cardiff University Johnny Sung is at The Institute for Adult Learning Singapore Workforce Development Agency Singapore

Skills in the Age of Over-Qualification Caroline Lloyd, Jonathan Payne, 2016-10-27 Across the developed world most of us who work now earn our living in the service sector However the issue of what kind of service economy is sustainable and desirable both in economic and social terms is rarely debated This book argues that this needs to change National governments have emphasised the role of skills in achieving international competitiveness higher living standards and social inclusion However even prior to the 2008 financial crisis problems of over qualification skills wastage and poor job quality were becoming difficult to ignore This raises important questions about what kind of service sector jobs

will be on offer to meet the aspirations of an increasingly qualified workforce and what role can governments play in raising the skills required in jobs and the quality of jobs and services Work organisation and job design are key factors shaping the skill content of work and the opportunities workers have to deploy their skills and capabilities Through cross national comparative research this book examines whether and why service sector jobs vary across countries Drawing upon detailed empirical research the jobs of vocational teacher fitness instructor and caf worker in the UK Norway and France are compared allowing an exploration of the role of national institutions sectors and organisations in shaping work organisation and job quality The findings contribute to the comparative study of work organisation the relationship between skills and performance the role and purpose of education and the prospects for better jobs in the age of over qualification *OECD Skills Studies OECD Skills Strategy Diagnostic Report: Peru 2016* OECD,2016-11-25 Skills are central to Peru s future prosperity and the well being of its people Peru s economic development to date has largely been driven by abundant natural resources and high commodity prices in the global market The goal for the future is to ensure productive diversification expand Skill Mismatch in Labor Markets Solomon W. technical education in the post war period Why did Margaret Thatcher manipulate government training programmes before the 1987 General Election And what was the fallout of Tony Blair s government over lifelong learning In this book Tom Bewick examines the evolution of UK skills policy from the 1881 Royal Commission on Technical Instruction to the present day revealing how shifting political ideologies have shaped workforce development He applies a chronological historical political policy analysis framework to explain the four training states of skills policy and workforce development between the 1940s and the 2020s The interventionist state 1939 1979 The laissez faire state 1980 1988 Localism and the devolved states 1989 2010 The technocratic state 2010 present Traversing time periods to uncover political and economic driving forces this book challenges conventional thinking and offers insights into how future skills policies can be more effective *Elgar Encyclopedia of Labour Studies* Tor Eriksson,2023-09-06 This authoritative Elgar Encyclopedia provides a comprehensive overview of central concepts in labour studies and how they can be used to analyse labour markets Examining regional and sectoral labour markets alongside the internal labour markets of firms it clearly lays out the current state of social scientific knowledge on labour OECD Skills Studies Skills Development and Training in SMEs OECD,2013-06-21 This book examines access to training by SMEs across seven regions in six OECD countries New Zealand Poland Belgium UK Turkey and Canada **Prolonged Employment of Older Workers** Kasia Karpińska,2025-10-01 Prolonged and productive employment of older workers is a necessary condition to maintain welfare and social security systems threatened by ageing populations Yet not much is known about the factors that define the opportunities for older workers in the labour market The current study has evaluated which individual characteristics of older workers organisations and managers affect managers decisions to hire older workers offer them training opportunities and retain them in organisations as well as the potential role of managers attitudes on their behaviour with respect to older workers *Post-16 skills* Great Britain: Parliament: House of Commons: Education and Skills Committee,2007-08-14 Post 16 Skills Ninth report of session 2006 07 Vol 2 Oral and written Evidence OECD Reviews on Local Job Creation Future-Proofing Adult Learning in London, United Kingdom OECD,2021-03-09 Cities are not only home to around half of the global population but are also at the forefront of the transformation of jobs skills and labour markets Furthermore cities play a leading role in the COVID 19 response as the pandemic is not only accelerating megatrends such as digitalisation and automation that change the world of work but is also challenging city economies Technological Change and Skill Development in Arab Gulf Countries Samia Mohamed Nour,2013-12-02 This book discusses skill formation upskilling of workers and their interaction with technological change in Gulf countries Heavy dependence on oil the Dutch Disease and the high incidence of unskilled foreign workers have caused serious structural imbalances in the labour market in the Gulf The author shows that success of economic development strategies to address such imbalances are all contingent upon the development of adequate and appropriate skills in the region This book confirms the role and impact of the deficiencies in the educational system alongside the well established

effects of the excessive use of uneducated foreign workers and lack of incentives in the labour market A comprehensive investigation of the skill problem and an elaborate in depth analysis to assess the causes consequences and relationships between poor skills and technological performance are highlights of this book This is an ideal resource for policy makers in the Gulf region and researchers of the topic **Education's Impact on Economic Competitiveness** United States.

Inclusive Growth in Australia John Buchanan,Paul Smyth,2020-07-16 Inclusive Growth in Australia overturns two decades of assumptions that social policy is wasteful and a source of dependency It reflects a global resurgence of the understanding that an active and effective social policy regime is vital not only for a flourishing society but also for a strong economy It explains this new paradigm of inclusive growth and shows how it can be implemented in Australia Inclusive growth dismantles the idea that social development will automatically trickle down from untrammelled market based growth Rather growth must be managed so that it is employment centred broad based across sectors and with a social security system promoting sustainability and equality of opportunity The editors argue that productivity is nearly everything when it comes to raising living standards So while social policies will be about goals other than the economy they must demonstrate their compatibility with an economic growth strategy With contributions from leading national and international experts in the field including Marian Baird Grant Belchamber Gerald Burke Saul Eslake Roy Green and Peter Whiteford Inclusive Growth in Australia shows that welfare state spending is as much an economic investment as a measure of social protection Written for policy makers industry and NGOs as well as students Inclusive Growth in Australia locates Australian economic and social policy within the most important emergent themes shaping international debate **OECD Skills Strategy 2019**
