contributors discuss the many and diverse elements which have influenced writings on the Empire the pressure of current events access to primary sources the creation of relevant university chairs the rise of nationalism in former colonies decolonization and the Cold War They demonstrate how the study of empire has evolved from a narrow focus on constitutional issues to a wide ranging enquiry about international relations the uses of power and impacts and counterimpacts between settler groups and native peoples The result is a thought provoking cultural and intellectual inquiry into how we understand the past and whether this understanding might affect the way we behave in the future *Black Theology in Britain* Michael N. Jagessar, Anthony G. Franklin, 2012 Scholars have long recognized the importance of gender and hierarchy in the slave societies of the New World yet gendered analysis of Cuba has lagged behind study of other regions Cuban elites recognized that creating and maintaining the Cuban slave society required a rigid social hierarchy based on race gender and legal status Given the dramatic changes that came to Cuba in the wake of the Haitian Revolution and the growth of the enslaved population the maintenance of order required a patriarchy that placed both women and slaves among the lower ranks Based on a variety of archival and printed primary sources this book examines how patriarchy functioned outside the confines of the family unit by scrutinizing the foundation on which nineteenth century Cuban patriarchy rested This book investigates how patriarchy operated in the lives of the women of Cuba from elite women to slaves Through chapters on motherhood marriage education public charity and the sale of slaves insight is gained into the role of patriarchy both as a guiding ideology and lived history in the Caribbean s longest lasting slave society Publisher s description Girlhood Jennifer Helgren, Colleen A. Contested States Mindie Lazarus-Black, Susan F. Hirsch, 2012-11-12 Contested States examines how hegemony is created and facilitated through law as well as how people use legal arenas to resist oppression The essays written by anthropologists and historians offer rich historical and ethnographic detail as they engage these themes in such contexts as colonial and post colonial courts in Kenya India Uganda and the Caribbean bureaucracies in Tonga and Turkey and judicial processes in the historical and contemporary United States Contested States contributes to the new focus on power and social process in legal studies and argues that while states encode and enforce law a crucial part of the power of law is its very contestability The book demonstrates that theoretical insights learned in legal arenas can deepen one's overall understanding of sociocultural order and the processes of historical and legal change

Rethinking American History in a Global Age Thomas Bender, 2002-05-14 In One eloquent essay after another some of the wisest historians of our time write American history in a grand cosmopolitan context From the era of discovery to the present histories that we thought we knew of labor of race relations of politics of gender relations of diplomacy of ethnicity are more richly understood when causes and consequences are traced throughout the globe One emerges invigorated ready to welcome a new American history for a new international century Linda K Kerber author of No Constitutional Right to Be Ladies Women and the Obligations of Citizenship Rethinking American History in a Global Age is an extremely stimulating and thought provoking collection of essays written by leading historians who offer wider contexts for illuminating the traditional themes and issues of American national history Particularly impressive is the book's combination of caution and original sometimes daring insights David Brion Davis author of In the Image of God

Religion Moral Values and Our Heritage of Slavery For decades American historians have been urging one another to place our culture in comparative or transnational perspective Thomas Bender's unique volume includes not only essays theorizing such efforts and essays exemplifying such work at its most successful and its most provocative it also provides more skeptical assessments questioning whether American historians can meet the challenge of overcoming our longstanding national preoccupations *Rethinking American History in a Global Age* is an indispensable book that will shape the work of a rising generation of historians whose horizons will extend beyond our own shores James T Kloppenberg author of *The Virtues of Liberalism* **New Studies in the History of American Slavery** Edward E. Baptist, Stephanie M. H. Camp, 2006 These essays by some of the most prominent young historians writing about slavery fill gaps in our understanding of such subjects as enslaved women the Atlantic and internal slave trades the relationships between Indians and enslaved people and enslavement in Latin America Inventive and stimulating the essays model the blending of methods and styles that characterizes the new cultural history of slavery's social political and economic systems Several common themes emerge from the volume among them the correlation between race and identity the meanings contained in family and community relationships gender and life's commonplaces and the literary and legal representations that legitimated and codified enslavement and difference Such themes signal methodological and pedagogical shifts in the field away from master slave or white black race relations models toward perspectives that give us deeper access to the mental universe of slavery Topics of the essays range widely including European ideas about the reproductive capacities of African women and the process of making race in the Atlantic world the contradictions of the assimilation of enslaved African American runaways into Creek communities the consequences and meanings of death to Jamaican slaves and slave owners and the tensions between midwifery as a black cultural and spiritual institution and slave midwives as health workers in a plantation economy Opening our eyes to the personal the contentious and even the intimate these essays call for a history in which both enslaved and enslavers acted in a vast human drama of bondage and freedom salvation and damnation wealth and exploitation

Winks, 1999 This volume investigates the shape and the development of scholarly and popular opinion about the British Empire over the

centuries *Women's Work, Men's Work* Betty Wood, 1995 In *Women's Work Men's Work* Betty Wood examines the struggle of bondpeople to secure and retain for themselves recognized rights as producers and consumers in the context of the brutal formal slave economy sanctified by law Wood examines this struggle in the Georgia lowcountry over a period of eighty years from the 1750s to the 1830s when she argues the evolution of the system of informal slave economies had reached the point that it would henceforth dominate Savannah's political agenda until the Civil War and emancipation The daily battles of bondpeople to secure rights as producers and consumers reflected and reinforced the integrity of the private lives they were determined to fashion for themselves Wood posits Their families formed the essential base upon which and for which they organized their informal economies An expanding market in Savannah provided opportunities for them to negotiate terms for the sale of their labor and produce and for them to purchase the goods and services they sought In considering the quasi autonomous economic activities of bondpeople Wood outlines the equally significant but quite different roles of bondwomen and bondmen in organizing these economies She also analyzes the influence of evangelical Protestant Christianity on bondpeople and the effects of the fusion of religious and economic morality on their circumstances For a combination of practical and religious reasons Wood finds informal slave economies with their impact on whites became the single most important issue in Savannah politics She contends that by the 1820s bondpeople were instrumental in defining the political agenda of a divided city a significant if unintentional achievement
