Black Morocco Chouki El Hamel, 2014-02-27 Black Morocco A History of Slavery Race and Islam chronicles the experiences identity and achievements of enslaved black people in Morocco from the sixteenth century to the beginning of the twentieth century Chouki El Hamel argues that we cannot rely solely on Islamic ideology as the key to explain social relations and particularly the history of black slavery in the Muslim world for this viewpoint yields an inaccurate historical record of the people institutions and social practices of slavery in Northwest Africa El Hamel focuses on black Moroccans collective experience beginning with their enslavement to serve as the loyal army of the Sultan Isma'il By the time the Sultan died in 1727 they had become a political force making and unmaking rulers well into the nineteenth century The emphasis on the political history of the black army is augmented by a close examination of the continuity of black Moroccan identity through the musical and cultural practices of the Gnawa

A Fistful of Shells Toby

Green, 2019-03-21 By the time the Scramble for Africa among European colonial powers began in the late nineteenth century

Africa had already been globally connected for centuries. Its gold had fueled the economies of Europe and the Islamic world for nearly a millennium and the sophisticated kingdoms spanning its west coast had traded with Europeans since the fifteenth century. Until at least 1650 this was a trade of equals using a variety of currencies, most importantly cowrie shells imported from the Maldives and nzimbu shells imported from Brazil. But as the slave trade grew, African kingdoms began to lose prominence in the growing global economy. We have been living with the effects of this shift ever since. With *A Fistful of Shells*, Toby Green transforms our view of West and West Central Africa by reconstructing the world of these kingdoms, which revolved around trade, diplomacy, complex religious beliefs, and the production of art. Green shows how the slave trade led to economic disparities that caused African kingdoms to lose relative political and economic power. The concentration of money in the hands of Atlantic elites in and outside these kingdoms brought about a revolutionary nineteenth century in Africa, parallel to the upheavals then taking place in Europe and America. Yet political fragmentation following the fall of African aristocracies produced radically different results as European colonization took hold. Drawing not just on written histories but on archival research in nine countries, art, oral history, archaeology, and letters, Green lays bare the transformations that have shaped world politics and the global economy since the fifteenth century and paints a new and masterful portrait of West Africa past and present.

Encyclopedia of African American History Leslie M. Alexander, Walter C. Rucker, 2010-02-09 A fresh compilation of essays and entries based on the latest research, this work documents African American culture and political activism from the slavery era through the 20th century. *Encyclopedia of African American History* introduces readers to the significant people, events, sociopolitical movements, and ideas that have shaped African American life from earliest contact between African peoples and Europeans through the late 20th century. This encyclopedia places the African American experience in the context of the entire African diaspora, with entries organized in sections on African-European contact and enslavement, culture, resistance, and identity during enslavement, political activism from the Revolutionary War to Southern emancipation, political activism from Reconstruction to the modern Civil Rights movement, black nationalism and urbanization, and Pan-Africanism and contemporary black America. Based on the latest scholarship and engagingly written, there is no better go-to reference for exploring the history of African Americans and their distinctive impact on American society, politics, business, literature, art, food, clothing, music, language, and technology.

The Southern Shores of the Mediterranean and its Networks Patricia Lorcin, 2017-10-02 The majority of scholarly conceptions of the Mediterranean focus on the sea's northern shores, with its historical epicentres of Spain, France, or Italy. This book seeks to demonstrate the importance of economic, political, and cultural networks emanating from the Mediterranean's lesser-studied southern shores. The various chapters emphasize the activities that made connections between the southern shores, sub-Saharan Africa, the lands along its northern shores, and beyond to the United States. In doing so, the book avoids a Eurocentric approach and details the importance of the players and regions of the southern hinterland in the analysis of the Mediterranean space. The cultural aspects of the North

African countries be they music literature film commerce or political activism continue to transform the public spheres of the countries along the northern shores of the Mediterranean and beyond to the whole of the European continent In its focus on the often overlooked North African shore the work is an innovative contribution to the historiography of the Mediterranean region This book was originally published as a special issue of the Journal of North African Studies *Nigeria Magazine*, 1961
