Bridgewater, 2017-12-05 From the decorative to the practical Brickwork Projects for Patio Garden offers a range of projects for all levels of expertise Sixteen original projects range from a simple garden wall to a beautiful raised herringbone patio Each project has been photographed step by step during construction and the finished piece is shown in its garden setting Clear construction diagrams and concise text accompany every project A comprehensive techniques section provides expert advice and information on designing planning tools materials foundations concrete mortar and cutting and laying brick This attractive and accessible DIY book is full of ideas for creating practical garden features using this simple and traditional

material **Landscape Architecture**, 2001 **Forthcoming Books** Rose Arny, 2001 **Modern Hospice Design** Ken Worpole, 2009-05-13 There is a global public debate going on about care for the elderly and the dying and what is meant by good quality palliative care This book begins with the rise of the modern hospice movement begun in 1967 Today there are 8 500 modern hospice projects in 123 countries The hospice has become an iconic building for this new culture This is not a book about hospitals as such but about what lessons the hospice movement has for new ideas about buildings for healthcare across the world For architects and interior designers estate and facility managers involved in hospice design healthcare professionals hospital administrators and Healthcare Trust Boards **A Critical History of Contemporary Architecture**

Elie G. Haddad, David Rifkind, 2016-12-05 1960 following as it did the last CIAM meeting signalled a turning point for the Modern Movement From then on architecture was influenced by seminal texts by Aldo Rossi and Robert Venturi and gave rise to the first revisionary movement following Modernism Bringing together leading experts in the field this book provides a comprehensive critical overview of the developments in architecture from 1960 to 2010 It consists of two parts the first section providing a presentation of major movements in architecture after 1960 and the second a geographic survey that covers a wide range of territories around the world This book not only reflects the different perspectives of its various authors but also charts a middle course between the aesthetic histories that examine architecture solely in terms of its formal aspects and the more ideological histories that subject it to a critique that often skirts the discussion of its formal aspects
