Al-Hoorie, Safoura Jahedizadeh, 2020-09-11 In this book we try to provide a practical down to earth guide for those who are involved in language learning and teaching We hope that this book will be a useful reading for those who would like to incorporate higher order thinking skills HOTS enhancing techniques in their teaching practice We set out from the position that although it is hardly doubtful that it is at the heart of education critical thinking is in reality often not given its due attention in pedagogy particularly in language education This book offers readers some practical advice on how to implement HOTS in their own practice It has been written to take the reader through each technique with the ultimate goal of promoting HOTS step by step In the introductory chapter we present an overview of the theory behind HOTS its definition its relation to Bloom's Taxonomy its two dimensions critical thinking and reflective thinking and the ideas of some influential thinkers in this area. The subsequent chapters present six HOTS enhancing techniques that classroom teachers can draw from namely graphic organizers critical discourse analysis argumentation emotion regulation and emotional intelligence enhancing techniques reflective journals and mindfulness based strategies As the book draws on a wide ranging review of literature with exercises for direct use with language learners we hope that this provides both theoretical and practical support for the teaching process to help language learners become effective critical thinkers The compilation of the ideas in this book took us a long time over a decade Something that takes such a long time requires much engagement and life experience so did this book **Smart Thinking** Bryan Greetham, 2017-09-16 Unlock your students potential with Smart Thinking a step by step guide to generating ideas thinking creatively and conceptually and making decisions The book begins by explaining what smart thinking is and how it develops the skills that today s employers covet Part 1 unwraps the mysteries of conceptual thinking with chapters on how to create new concepts and analyse existing ones while Part 2 shows students how to release their creative potential and devise original solutions to complex problems Finally Part 3 shows students how to assess their ideas and solutions and come to a rational objective decision Chapters are packed with examples top tips and try this activities for students to put their thinking skills to the test Smart Thinking will be an indispensable companion for students of all levels and disciplines who want to

sharpen their thinking and improve the way they study Rethinking Online Education Bessie Mitsikopoulou, 2015-11-17 Rethinking Online Education analyzes online educational materials on the recent Iraq war aimed to be used by U S educators in elementary and secondary schools It is suggested that far from being ideologically neutral these educational materials weave together resources which provide a coherent view of the Iraq war theme and can thus been seen as constituting a kind of an informal curriculum Mitsikopoulou argues that the teacher resources adhere to different pedagogical discourses and constitute materializations of two broad approaches to education A number of pedagogical issues are also raised in the discussion What is the difference between critical thinking and critical pedagogy How is the genre of lesson plan realized in different teaching philosophies and how do curricular texts change when they are delivered online This important book highlights the need to explore the new forms of textuality which emerge from online curricular materials and to develop an understanding of the processes of text composition distribution and consumption **Research Methodology and** Scientific Writing C.
