and productive composer of orchestral music one of only a handful of American orchestral composers active at mid century Bristow wrote his Symphony no 2 Jullien in 1853 It is a substantial work in four movements scored for the standard orchestra of the early nineteenth century and strongly influenced by the personal styles of Beethoven and Mendelssohn whose works were performed regularly by the Philharmonic Society The symphony is skillfully crafted melodious and an intrinsically worthy work of musical artistry It was named to honor the French conductor Louis Jullien who visited the United States in 1853 54 with an unparalleled orchestra While in the United States Jullien both commissioned and performed American works including this symphony his support served as the catalyst for the Fry Willis battle The introductory essay to this symphony examines Bristow s career the composition of orchestral music in America at mid century and Jullien s role in the musical battle the edition makes available for the first time an important work that has been undeservedly forgotten for over 150 years
