 developing world the grim black holes of social exclusion on our increasingly unequal planet Will the Great Powers reinvent
 conflict between themselves or is war destined to become much smaller both in terms of its actors and the beliefs for which
 they will be willing to kill In this illuminating new book Christopher Coker takes us on an incredible journey into the future of
 warfare Focusing on contemporary trends that are changing the nature and dynamics of armed conflict he shows how
 conflict will continue to evolve in ways that are unlikely to render our century any less bloody than the last With insights from
