Sniper At War:

The Sniper at War Michael E. Haskew, 2005-11 The Sniper at War looks at the impact and role of the sniper from the American Revolutionary War to the present day Haskew looks at how the art of sniping in war has become more professional and specialized with dedicated training courses and equipment Famous snipers throughout history are profiled such as Vasili Zaitsev a hero of the battle of Stalingrad with testimonies from individual snipers who took part in modern conflicts from Vietnam to Afghanistan and the Gulf from publisher description *Hunters* Milo S. Afong, 2010-06-01 In the War on Terror there are no set battles The fanatical enemy adheres to no warrior code or international law Their only desire is to kill or be killed That's where the snipers of the U S Marines Army and Navy SEALs come in Here in their own words are the compelling true stories of the snipers whose sole purpose is to eliminate the enemy with a single bullet From Iraq to Afghanistan this is life and death as seen through the scope of a high powered rifle These snipers stories illustrate the mental discipline and psychological strength that they must possess to accomplish their missions the effect a sniper's skill and reputation has on the enemy and how they deal with the stark reality of their work after the target is neutralized and after a sniper returns to civilian life Part wartime chronicle part psychological exploration of the warrior mind and part expos into a secretive brotherhood of military snipers *Hunters* is a must read for anyone who wants to learn the truth about war when it's fought one kill at a time Includes photographs

War's Other Voices miriam cooke,1996-08-01 This book challenges the assumption that men write of war women of the hearth The Lebanese war has seen the publication of many more works of fiction by women than by men Miriam Cooke has termed these women the Beirut Decentrists as they are decentered or excluded from both literary canon and social discourse Although they may not share religious or political affiliation they do share a perspective which holds them together Cooke traces the transformation in consciousness that has taken place among women who observed and recorded the progress towards chaos in Lebanon During the so called two year war of 1975 76 little comment was made about those usually men in search of economic security who left the saturnalia of violence but with time attitudes changed Women became aware that they had remained out of a sense of responsibility for others and that they had survived Consciousness of survival was catalytic the Beirut Decentrists began to describe a society that had gone beyond the masculinization normal in most wars and achieved an almost unprecedented feminization Emigration the expected behavior for men before 1975 became the sin qua non for Lebanese citizenship The writings of the Beirut Decentrists offer hope of an escape from the anarchy If men and women could espouse the Lebanese women s sense of responsibility the energy that had fueled the unrelenting savagery could be turned to reconstruction But that was before the invasion of 1982

Boyle,2020-11-13 American War Stories asks readers to contemplate what traditionally constitutes a war story and how that constitution obscures the normalization of militarism in American culture The book claims the traditionally narrow scope of war story as by a combatant about his wartime experience compartmentalizes war casting armed violence as distinct from everyday American life Broadening war story beyond the specific genres of war narratives such as war films war fiction or war memoirs American War Stories exposes how ingrained militarism is in everyday American life a condition that challenges the very democratic principles the United States is touted as exemplifying

Sniping Rifles in World War I Martin Pegler,2022-05-26 While Germany and Austria Hungary were well equipped with sniping rifles in 1914 their Allied opponents were not This highly illustrated volume tells the inside story of the rifles carried by snipers of all the major powers during World War I Although military sharpshooting had existed since the 18th century in 1914 only the

German and Austro Hungarian armies fielded trained snipers armed with scoped rifles Thus upon the outbreak of World War I the Allied armies found themselves on the receiving end of a shooting war to which they had no means of response Only the Canadians brought a dedicated sniping rifle into the trenches but in small numbers For the British although production of a suitable rifle and scope were settled on quickly the establishment of sniper training was difficult and its success was mostly due to the efforts of a handful of dedicated officers The French eventually introduced a competent scoped rifle and a sniper training system as did the Italians Entering the war in 1917 the Americans experienced rifle shortages but were able to build on their pre 1914 efforts to find a suitable sniping weapon The country that suffered most grievously was Russia Russian troops fielded no snipers at all and suffered accordingly Featuring full colour artwork carefully chosen archive images and photographs of the sniping rifles and accessories used in the trenches this is the inside story of the rifles carried by snipers of all the major powers during World War I

German Literature and the First World War: The Anti-War Tradition Brian Murdoch, 2016-03-09 The period immediately following the end of the First World War witnessed an outpouring of artistic and literary creativity as those that had lived through the war years sought to communicate their experiences and opinions In Germany this manifested itself broadly into two camps one condemning the war outright the other condemning the defeat Of the former Erich Maria Remarque's *All Quiet on the Western Front* remains the archetypal example of an anti war novel and one that has become synonymous with the Great War Yet the tremendous and enduring popularity of Remarque's work has to some extent eclipsed a plethora of other German anti war writers such as Hans Chlumberg Ernst Johannsen and Adrienne Thomas In order to provide a more rounded view of German anti war literature this volume offers a selection of essays published by Brian Murdoch over the past twenty years Beginning with a newly written introduction providing the context for the volume and surveying recent developments in the subject the essays that follow range broadly over the German anti war literary tradition telling us much about the shifting and contested nature of the war The volume also touches upon subjects such as responsibility victimhood the problem of historical hiatus in the production and reception of novels drama poetry film and other literature written during the war in the Weimar Republic and in the Third Reich The collection also underlines the potential dangers of using novels as historical sources even when they look like diaries One essay was previously unpublished two have been augmented and three are translated into English for the first time Taken together they offer a fascinating insight into the cultural memory and literary legacy of the First World War and German anti war texts

The Hell of War Comes Home Owen W. Gilman Jr., 2018-02-09 Owen W Gilman Jr stresses the US experience of war in the twenty first century and argues that wherever and whenever there is war there will be imaginative responses to it especially the recent wars in Afghanistan and Iraq Since the trauma of September 11 the experience of Americans at war has been rendered honestly and fully in a wide range of texts creative nonfiction and journalism film poetry and fiction These responses Gilman contends have packed a lot of power and measure up even to World War II's literature and film Like few other books Gilman

s volume studies these new texts among them Kevin Powers s debut novel *The Yellow Birds* and Phil Klay s short stories *Redeployment* along with the films *The Hurt Locker* *American Sniper* and *Billy Lynn s Long Halftime Walk* For perspective Gilman also looks at some touchstones from the Vietnam War Compared to a few of the big Vietnam books and films this new material has mostly been read and watched by small audiences and generated less discussion Gilman exposes the circumstances in American culture currently preventing literature and film of our recent wars from making a significant impact He contends that Americans inclination to demand distraction limits learning from these compelling responses to war in the past decade According to Gilman where there should be clarity and depth of knowledge we instead face misunderstanding and the anguish endured by veterans betrayed by war and our lack of understanding

YouTube War Cori Elizabeth Dauber, 2009 Terrorist attacks today are often media events in a second sense information and communication technologies have developed to such a point that these groups can film edit and upload their own attacks within minutes of staging them whether the Western media are present or not In this radically new information environment the enemy no longer depends on traditional media This is the *YouTube War* This monograph methodically lays out the nature of this new environment in terms of its implications for a war against media savvy insurgents and then considers possible courses of action for the Army and the U S military as they seek to respond to an enemy that has proven enormously adaptive to this new environment and the new type of warfare it enables P iii
