Slethaug,2014-06-19 Traditional critics of film adaptation generally assumed a that the written text is better than the film adaptation because the plot is more intricate and the language richer when pictorial images do not intrude b that films are better when particularly faithful to the original c that authors do not make good script writers and should not sully their

imagination by writing film scripts and often that American films lack the complexity of authored texts because they are sourced out of Hollywood. The faithfulness view has by and large disappeared and intertextuality is now a generally received notion but the field still lacks studies with a postmodern methodology and lens. Exploring Hollywood feature films as well as small studio productions. Adaptation Theory and Criticism explores the intertextuality of a dozen films through a series of case studies introduced through discussions of postmodern methodology and practice. Providing the reader with informative background on theories of film adaptation as well as carefully articulated postmodern methodology and issues. Gordon Slethaug includes several case studies of major Hollywood productions and small studio films some of which have been discussed before: *Age of Innocence*, *Gangs of New York* and *Do the Right Thing* and some that have received lesser consideration: *Six Degrees of Separation*, *Smoke Signals*, *Broken Flowers* and various *Snow White* narratives including *Enchanted*, *Mirror Mirror* and *Snow White and the Huntsman*. Useful for both film and literary studies students. Adaptation Theory and Criticism cogently combines the existing scholarship and uses previous theories to engage readers to think about the current state of American literature and film.

Off with Their Heads! Maria Tatar, 1993-10-24 When fairy tales moved from workrooms, taverns and the fireside into the nursery they not only lost much of their irreverent earthy humor but were also deprived of their contestatory stance to official culture. Children's literature, Maria Tatar maintains, has always been more intent on producing docile minds than playful bodies. From its inception it has openly endorsed a productive discipline that condemns idleness and disobedience along with most forms of social resistance.

Shapers of American Childhood Kathy Merlock Jackson, Mark I. West, 2018-09-24 The experience of growing up in the U.S. is shaped by many forces. Relationships with parents and teachers are deeply personal and definitive. Social and economic contexts are broader and harder to quantify. Key individuals in public life have also had a marked impact on American childhood. These 18 new essays examine the influence of pivotal figures in the culture of 20th and 21st century childhood and child rearing from Benjamin Spock and Walt Disney to Ruth Handler (Barbie's inventor) and Ernest Thompson Seton (founder of the Boy Scouts of America).
