The thoughts of the emperor Marcus Aurelius Antoninus, tr. by G. Long. India paper ed Marcus Aurelius (Emperor of Rome), emperor Marcus Aurelius Antoninus, 1903 Philosophy of Education in the Era of Globalization Yvonne Raley, Gerhard

Preyer, 2009-12-04 Terrorism ethnocentrism religious tension competition over limited resources war these are just a few of the problems and challenges that have emerged in today's global economy Globalization both implies and requires economic interdependence and this should bring with it a heightened sense of the interconnectedness of the participating societies But unfortunately as recent events indicate rather than our having formed a global community today's society is more fragmented than ever In light of this education faces some formidable new challenges How do we prepare future citizens for the world they will live in How do we teach future generations to embrace the paradox of accepting the value of multiculturalism despite the conflicts it has produced How do we instill religious tolerance in a time when fundamentalism has become inextricably tied with terrorism How do we promote economic growth in the face of overpopulation and its depletion of resources The authors of this collection of essays explore these and related challenges and they suggest some novel ways of dealing with them

Freedom to Win Ethan Scheiner, 2023-07-04 A classic David Goliath tale complete with colorful heroes cold hearted villains and nail biting games with the hockey rink serving as an arena for a nation's resistance During the height of the Cold War a group of small town young men would lead their underdog hockey team from the little country of Czechoslovakia against the Soviet Union the juggernaut in their sport As they battled on the ice the young players would keep their people's quest for freedom alive and forge a way to fight back against the authoritarian forces that sought to crush them From the sudden invasion of Czechoslovakia by an armada of tanks and 500 000 Warsaw Pact soldiers to a hockey victory over the Soviets that inspired half a million furious citizens to take to the streets in an attempt to destroy all representations that they could find of their occupiers Freedom to Win tells a story that ranges from iconic moments in history to courageous individual stories We will witness the fearless escape by three brothers who make up the core of the national team We will experience thrilling world championship games We will watch as one brave player takes a stand and leads ten thousand people in a tear filled rendition of the Czechoslovak national anthem amid chants of freedom while a revolution rages in the streets of Prague And we will cheer as the team takes on its nemesis one last time with the Olympic gold medal at stake At the heart of Freedom to Win is the story of the Holks a Czechoslovak family whose resistance to the Communists embodied the deepest desires of the people of their country Faced with life under the cruel and arbitrary regime

that had stolen their family butcher shop the Hol k boys became national hockey icons and inspirations to their people Filled with heart pounding moments on the ice and unforgettable slices of history Freedom to Win is the ultimate tale of why sports truly matter

The Greengrocer and His TV Paulina Bren, 2011-08-15 The 1968 Soviet invasion of Czechoslovakia brought an end to the Prague Spring and its promise of socialism with a human face Before the invasion Czech reformers had made unexpected use of television to advance political and social change In its aftermath Communist Party leaders employed the medium to achieve normalization pitching television stars against political dissidents in a televised spectacle that defined the times *The Greengrocer and His TV* offers a new cultural history of communism from the Prague Spring to the Velvet Revolution that reveals how state endorsed ideologies were played out on television particularly through soap opera like serials In focusing on the small screen Paulina Bren looks to the normal of normalization to the everyday experience of late communism The figure central to this book is the greengrocer who in a seminal essay by Vclav Havel symbolized the ordinary citizen who acquiesced to the communist regime out of fear Bren challenges simplistic dichotomies of fearful acquiescence and courageous dissent to dramatically reconfigure what we know or think we know about everyday life under communism in the 1970s and 1980s Deftly moving between the small screen the street and the Central Committee and imaginatively drawing on a wide range of sources that include television shows TV viewers letters newspapers radio programs the underground press and the Communist Party archives Bren shows how Havel's greengrocer actually experienced normalization and the ways in which popular television serials framed this experience Now back by popular demand socialist era serials such as *The Woman Behind the Counter* and *The Thirty Adventures of Major Zeman* provide Bren contends a way of seeing literally and figuratively Czechoslovakia's normalization and Eastern Europe's real socialism
