Soviet Industrialization 1928 195:

Beginnings of Russian Industrialization, 1800-1860 William L. Blackwell, 2015-12-08 Since Russian tradition and institutions resemble those of Asia and Africa as much if not more than the patterns of Western societies the pre 1917 industrial history of Russia as the last part of the tsarist regime provides one of the most important examples of early industrialization in world history In this broad ambitious reconstruction of the early stages of Russia s industrial development English Professor Blackwell shows that the period from 1800 to 1860 was one of necessary preparation for the rapid industrialization of the later 19th century The book is based upon a wide variety of primary and secondary sources in the Russian language Originally published in 1968 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 The Soviet Industrialization Debate, 1924-1928 Alexander Erlich, 1960 **The Political Economy of Soviet Socialism: the Formative Years, 1918-1928** Peter J. Boettke, 2013-03-14 This book presents a narrative of one of the more interesting utopian experiments in comparative political and economic history the first decade of the Soviet experience with socialism 1918 1928 Though historical and textual analysis the book s goal is to render this experience intelligible to get at the meaning of the Soviet experience with socialism for comparative political economy today The book examines the texts of Lenin Bukharin and other revolutionaries as well as the interpretations of contemporary historians of the revolution and the writings of more recent interpreters of Soviet political and economic history Arguing that the first three years of the Bolshevik regime 1918 1921 constitute an attempt to carry out the Marxian ideal of comprehensive central planning and that the disastrous results which all commentators agree occurred were the inevitable outcome of this Marxian ideal coming into conflict with the economic reality of the coordination problem that all economic systems face the book draws clear conclusions and elucidates the air of mystery that often surrounds the subject Offering a radical challenge to contemporary comparative political economy at the level of high theory applied research and public policy this book is appropriate for students and scholars interested in Marxism economic history political economy and Austrian economics **Social Dimensions of Soviet Industrialization** William G. Rosenberg, Lewis H. Siegelbaum, 1993 This is a fine book impressive in both quantity and quality Journal of Economic History The collection stands out as one of the most useful volumes currently available on the Soviet Union in the 1930s Labour History Review Altogether this book succeeds in opening up the social history of the Soviet Union in the era of planning for those students and scholars who are ready to advance beyond the old stereotypes ILWCH The pathbreaking essays assembled here examine the complex pattern of relationships between the first Five Year Plans and the society and

culture of Stalinist Russia Discussion focuses on urbanization social mobility questions of social identity and the cultural constructions of the industrialization drive as well as work organization management relations and the underlying processes of industrial organization The Body Soviet Tricia Starks,2008-11-04 Health though essential to the revolutionary vision and crucial to Soviet plans for utopia has been neglected by traditional histories caught up in Cold War debates The Body Soviet recovers this significant aspect of Soviet thought by providing a cross disciplinary comparative history of Soviet health programs that draws upon rich sources of health care propaganda including posters plays museum displays films and mock trials **Russian National Income, 1885-1913** Paul R. Gregory,2004-06-07 A frame of reference against which to contrast Soviet economic performance **The Hungarian Agricultural Miracle?** Zsuzsanna Varga,2020-11-09 This book examines Soviet agriculture in post 1945 Hungary It demonstrates how the agrarian lobby a development following the 1956 revolution led to contact with the West which allowed for the creation of an effective agricultural system The author argues that this Hungarian agricultural miracle a hybrid of American technology and Soviet structures was fundamental to the success of Hungarian collectivization *Vasily Grossman and the Soviet Century* Alexandra Popoff,2019-03-26 The definitive biography of Soviet Jewish dissident writer Vasily Grossman If Vasily Grossman s 1961 masterpiece Life and Fate had been published during his lifetime it would have reached the world together with Pasternak s Doctor Zhivago and before Solzhenitsyn s Gulag But Life and Fate was seized by the KGB When it emerged posthumously decades later it was recognized as the War and Peace of the twentieth century Always at the epicenter of events Grossman 1905 1964 was among the first to describe the Holocaust and the Ukrainian famine His 1944 article The Hell of Treblinka became evidence at Nuremberg Grossman s powerful anti totalitarian works liken the Nazis crimes against humanity with those of Stalin His compassionate prose has the everlasting quality of great art Because Grossman s major works appeared after much delay we are only now able to examine them properly Alexandra Popoff s authoritative biography illuminates Grossman s life and legacy What Was Soviet Ideology? Petre Petrov,2023-11-02 Because the Soviet Union loudly proclaimed to be an ideological state its scholars have rarely scrutinized ideology as a concept Instead they have treated it as a self evident fact and proceeded to deliberate the importance of the Marxist Leninist creed in social life or political decision making In the context of the Cold War such theoretical neglect was exacerbated by political investments that often outweighed and deformed intellectual priorities This has left us today with a notion that is both worn out and opaque over used but under thought In What Was Soviet Ideology Petre Petrov stakes a new theoretical ground beyond prevalent misconceptions ready made definitions and popular stereotypes Drawing on continental philosophy and critical theory this book presents ideology as a dynamic form with its own inner dialectic in which the Soviet ideological regime figures as an original moment a sui generis phenomenon Petrov argues that Soviet ideology should be seen not as a member of an existing species but as a qualitative transformation of the species ideology and itself *Mastering Twentieth-Century Russian History* Norman

Lowe, 2020-08-29 Mastering Twentieth Century Russian History presents a vivid and informative account of the events which befell the Russian people during the course of the twentieth century Explores the major developments of the last century from the revolution of 1905 to the First and Second World Wars to the Cold War and the rise and fall of the USSR Examines key figures and their actions from Nicholas II Lenin Trotsky Stalin Khrushchev Brezhnev Gorbachev and Yeltsin to Putin Deals with events right up to 2000 enabling the Soviet experiment to be placed in context a decade after its collapse Incorporates the latest research from British American and Russian historians examining key controversies and debates Includes primary source material maps photographs posters and a full chronology of events This text is the ideal companion for anyone seeking a clear yet detailed introduction to the fascinating events of twentieth century Russian history
