Soviet Military Reform Gerard Holden, 1991 **Defensive Restructuring of the Armed Forces in Southern Africa** Bjørn Møller, Gavin Cawthra, 2019-01-15 Published in 1997 the work explores the reorientation of security policies and the accompanying restructuring of the armed forces going on in Southern Africa under entirely new circumstances Democracy has come to South Africa the civil wars in Angola and Mozambique have ended and the region is establishing a regional framework for cooperation While covering the entire region a special focus is placed on South Africa which is predestined to play a leading role but which is struggling with the legacy of the apartheid regime and its repeated aggressions against neighbouring states A defensive restructuring of the South African of the South African military is an element in the building of mutual trust The implications of such defensive restructuring to a non offensive defence are described in detail In addition to the analytical contribution the work also contains central documents and a bibliography **European Security** Bjørn Møller, 2016-04-22 Europe has undergone quite profound changes since the end of the Cold War Having been a highly militarised conflict ridden and war ridden region the core of Europe today constitutes a security community where armed conflicts among the constituent states has become inconceivable This comprehensive book offers a theoretically founded and thoroughly documented analysis of European security with a special emphasis on the role played by the United Nations and the various regional and sub regional organisations especially the North Atlantic Treaty Organisation the Organisation for Security and Cooperation in Europe the Council of Europe and the European Union When it comes to explaining peace in Europe opinions differ widely Some argue that it was only because the West refused to give in to Soviet threats that the latter eventually gave up or that the long peace in Europe was due to the combination of a bipolar alliance structure pitting the North Atlantic Treaty Organisation NATO against the Warsaw Pact with the presence of nuclear weapons on both sides Others point instead to the extraordinarily dense network of international institutions and organisations in Europe offering a wide panoply of fora in which to handle disputes peacefully or to the web of interdependence in economic and other affairs tying together all states in Europe in relations which militate strongly against war Still others believe that the external peace between the states in Europe is simply a reflection of a convergence of cultures democracies with marked economies that are open towards the world market These questions are the focal point of this book which concentrates on security albeit not in the sense of being a treatise on military matters but security obtainable by much more indirect and non military means It will be required reading for all students and scholars of European security and the organisations which underpin it [World Military History Bibliography](#) Barton Hacker, 2003-06-01 Preclassical and indigenous nonwestern military institutions and methods of warfare are the chief subjects of this annotated bibliography of work published 1967 1997 Classical antiquity post Roman Europe and the westernized armed forces of the 20th century although covered receive less systematic attention Emphasis is on historical studies of military organization and the relationships between military and other social institutions

rather than wars and battles Especially rich in references to the periodical literature the bibliography is divided into eight parts 1 general and comparative topics 2 the ancient world 3 Eurasia since antiquity 4 sub Saharan Africa and Oceania 5 pre Columbian America 6 postcontact America 7 the contemporary nonwestern world and 8 philosophical social scientific natural scientific and other works not primarily historical

Defence Doctrines and Conversion Bjørn Møller, Lev Sergeevich Voronkov, 1996 This work contains the contributions to the workshop on conversion held under the auspices of the second conference of the European Peace Research Association EUPRA on Improving European Security Threats and Responsibilities held in Budapest 11-14 November 1993 It also contains additional contributions from members of the Study Group on Conversion Issues under the auspices of IPRA International Peace Research Association

Non-offensive Defence in the Middle East? Bjørn Møller, 1998

Korean Security Policies Toward Peace and Unification Byong-Moo Hwang, Yong-Sup Han, 1996

Resolving the Security Dilemma in Europe Bjørn Møller, 1991 For the first time since the beginning of the Cold War more than 40 years ago the political determinants of military security in Europe are changing much more quickly than the technological ones Non offensive defence is now a more acceptable strategy than it was before and this book points towards realistic solutions to the problems of excessive dependence on nuclear weapons and or self defeating offensive force structures The ideas examined are especially important for British and American audiences since the Anglo Saxon countries are the ones most wedded to NATO orthodoxy and therefore the slowest to react to the current wave of change

Frieden schaffen mit anderen Waffen? Lutz Unterseher, 2011-03-09 Im Prinzip sind Streitkräfte immer gleich zweigesichtig sowohl für den Angriff als auch für die Verteidigung geeignet Deswegen gefährdet jeder der zum eigenen Schutz rüstet damit automatisch auch die Sicherheit seines Kontrahenten Auf diese Weise wird eine Spirale der Aufrüstung in Gang gesetzt ein Prozess sich wechselseitig verstärkender Rüstung So jedenfalls sieht es eine weltweit etablierte immer noch einflussreiche Denkschule von Politikwissenschaftlern Unsinn sagt Lutz Unterseher und hält energisch dagegen Armee ist nicht gleich Armee Streitkräfte die sich strukturell auf ihre Schutzfunktion konzentrieren der Aggression eine Absage erteilen und dadurch zur internationalen Stabilität beitragen sind eine reale Option der Politik Um dieses Erkenntnis zu festlegen wird bei Philosophen Historikern und kritischen Strategieforschern angeklopft zur Klärung der Frage unter welchen Bedingungen militärische Schutzvorkehrungen den Ausbruch von Kriegen unwahrscheinlicher machen Die großen Denker des Krieges Sun Tze und von Clausewitz folgen sich der Argumentation ein mit ihren Vorstellungen von der Überlegenheit der Defensive Und es wird unternommen Lehren aus der Diskussion um Modelle einer Alternativen Verteidigung zu ziehen die in den 1980er Jahren beanspruchten Wege aus der immer gefährlicher werdenden Konfrontation der Blöcke zu weisen Schließlich Es lässt sich zeigen dass die Idee von Streitkräften die nicht provozieren sondern schützen und die dadurch stabilisierend wirken grundsätzlich auch auf die Militärinterventionen unserer Tage übertragen werden kann Eine Politik die befrieden will muss auch den Zuschnitt ihrer bewaffneten Kräfte reflektieren ihn auf glaubwürdige Weise dem Zweck anpassen

Defensive

ohne Alternative Lutz Unterseher, 2013-03-12 Lutz Unterseher geht der Frage nach, welche Art militärischer Rüstung mit dem Ziel vereinbar ist, bewaffnete Konflikte zu vermeiden oder zumindest zu begrenzen.
