Soviet Planning In Peace And War 1938 1945:

Soviet Planning in Peace and War, 1938-1945 Mark Harrison, 1985 This book is about the impact of war on the Soviet system of economic planning and management between 1938 and 1945 What was the dynamic of change in the prewar Soviet economic system How well was the Soviet economy prepared for war What kind of war followed the German invasion of 1941 and what costs did it inflict on the Soviet Union How did the Soviet economy measure up to wartime requirements and what changes in economic organisation resulted What lessons were laid down for the postwar Soviet approach to both peaceful and warlike tasks **Kiev 1941** David Stahel, 2011-11-03 In just four weeks in the summer of 1941 the German Wehrmacht wrought unprecedented destruction on four Soviet armies conquering central Ukraine and killing or capturing three quarters of a million men This was the Battle of Kiev one of the largest and most decisive battles of World War II and for Hitler and Stalin a battle of crucial importance In this book David Stahel charts the battle's dramatic course and aftermath uncovering the irreplaceable losses suffered by Germany's panzer groups despite their battlefield gains and the implications of these losses for the German war effort He illuminates the inner workings of the German army as well as the experiences of ordinary soldiers showing that with the Russian winter looming and Soviet resistance still unbroken victory came at huge cost and confirmed the turning point in Germany's war in the East **War, Evacuation, and the Exercise of Power** Larry E. Holmes, 2012-05-31 War Evacuation and the Exercise of Power examines the history of the Pedagogical Institute located in the USSR's Kirov region from 1941 to 1952 Holmes reveals a tangled and complex relationship of local regional and national agencies While it recognizes the immense strength of the center it emphasizes a contentious diffusion although not a confusion of authority In so doing it departs from traditional models of Soviet power with their neatly drawn vertical and horizontal lines of command It also demonstrates institutional and personal behavior simultaneously consistent with and at odds with a triumphalist wartime narrative The Nazi invasion of Soviet held territory in 1941 set off a massive evacuation eastward that included the relocation in Kirov of the Commissariat of Forest Industry and a large factory under the jurisdiction of the Commissariat of Aviation Industry By occupying the two main buildings of Kirov's Pedagogical Institute these commissariats forced the Institute to abandon the provincial capital for a remote rural location Iaransk Then and for years thereafter the Pedagogical Institute portrayed itself as the victim of these commissariats' bad behavior that included the physical destruction of the Institute's buildings and much of its property In its quest for justice as it understood it the Institute had the support of the Commissariat of Education But that agency was far too weak in comparison with its institutional competitors the offending commissariats to provide much help Of greater significance the Institute forged a remarkable alliance with governing party and state organs in the city and region of Kirov A united Kirov compelled the entry into the dispute of the Council of Peoples Commissars of both the Russian Republic and Soviet Union and the party's Central Committee In addition to a focus on the exercise of power at the center and periphery this study also

assesses the Institute's wartime exile in Iaransk. The difficulties of life there led to a Soviet version of town vs gown and provoked the Institute's further resentment of Moscow. They also exacerbated conflict among distinct groups at the Institute as each advanced its own interests and authority. Faculty and administration ranked and unranked; faculty communists and non communists; and evacuated instructors and the Institute's own all fought amongst themselves over the relationship of politics and scholarship and over the legitimacy of a highly stratified system of food rationing.

Stalin as Warlord Alfred J. Rieber, 2022-08-23. An authoritative account of Stalin as a wartime leader showing how his paradoxical policies of mass mobilization and repression affected all aspects of Soviet society. The Second World War was the defining moment in the history of the Soviet Union. With Stalin at the helm it emerged victorious at a huge economic and human cost. But even before the fighting had ended Stalin began to turn against the architects of success. In this original and comprehensive study Alfred J. Rieber examines Stalin as a wartime leader arguing that his policies were profoundly paradoxical. In preparation for the war Stalin mobilized the whole of Soviet society in pursuit of his military goals and intensified the centralization of his power. Yet at the same time his use of terror weakened the forces vital to the defense of the country. In his efforts to rebuild the country after the devastating losses and destruction he suppressed groups that had contributed immeasurably to victory. His steady ruthless leadership cultivated a legacy that was to burden the Soviet Union and Russia to the present day.

The Second World Wars Victor Davis Hanson, 2017-10-17. A breathtakingly magisterial account of World War II by America's preeminent military historian. Wall Street Journal: World War II was the most lethal conflict in human history. Never before had a war been fought on so many diverse landscapes and in so many different ways: from rocket attacks in London to jungle fighting in Burma to armor strikes in Libya. The Second World Wars examines how combat unfolded in the air, at sea, and on land to show how distinct conflicts among disparate combatants coalesced into one interconnected global war. Drawing on 3,000 years of military history, bestselling author Victor Davis Hanson argues that despite its novel industrial barbarity, neither the war's origins nor its geography were unusual. Nor was its ultimate outcome surprising. The Axis powers were well prepared to win limited border conflicts, but once they blundered into global war, they had no hope of victory. An authoritative new history of astonishing breadth, The Second World Wars offers a stunning reinterpretation of history's deadliest conflict.

How Progress Ends Carl Benedikt Frey, 2025-09-16. A globally comparative historical assessment of the factors that speed up technological and economic progress and those that slow it down. Provided by publisher.

The Dark Valley Piers Brendon, 2007-12-18. The 1930s were perhaps the seminal decade in twentieth century history: a dark time of global depression that displaced millions, paralyzed the liberal democracies, gave rise to totalitarian regimes, and ultimately led to the Second World War. In this sweeping history Piers Brendon brings the tragic, dismal days of the 1930s to life. From Stalinist pogroms to New Deal programs, Brendon re-creates the full scope of a slow international descent towards war. Offering perfect sketches of the players, riveting descriptions of major events and crises, and telling details from everyday life, he offers

both a grand rousing narrative and an intimate portrait of an era that make sense out of the fascinating complicated and profoundly influential years of the 1930s **The Dictators** Richard Overy,2022-05-31 A book of great importance it surpasses all others in breadth and depth Commentary If the past century will be remembered for its tragic pairing of civilized achievement and organized destruction at the heart of darkness may be found Hitler Stalin and the systems of domination they forged Their lethal regimes murdered millions and fought a massive deadly war Yet their dictatorships took shape within formal constitutional structures and drew the support of the German and Russian people In the first major historical work to analyze the two dictatorships together in depth Richard Overy gives us an absorbing study of Hitler and Stalin ranging from their private and public selves their ascents to power and consolidation of absolute rule to their waging of massive war and creation of far flung empires of camps and prisons The Nazi extermination camps and the vast Soviet Gulag represent the two dictatorships in their most inhuman form Overy shows us the human and historical roots of these evils Stalin and War, 1918-1953 David R. Shearer,2023-09-11 Stalin and War 1918 1953 is the first book to examine the patterns of radicalized internal violence that characterized the Stalinist regime across the whole of the dictator s rule and it is one of the only works to connect patterns of internal violence to the dictator s perceptions of war and foreign threat Discussion focuses on the crisis years 1928 1932 1936 1939 the Great Fatherland War and the last war crisis period 1947 1953 Violent repressions under Stalin were cyclical They peaked and ebbed but in each case they were linked to Stalin s expectation of war and invasion to his perceived need for urgent internal mobilization and to intense foreign policy activity Stalin s behavior in each of these perceived war crises followed a pattern established during the dictator s experience as a military commander in the Russian revolutionary wars and especially during the Polish war in 1919 and 1920 Together these chapters trace a consistent and interconnected logic of war and repression throughout Stalin s political life This book will be of interest to professional scholars of Soviet history twentieth century history and World War II history and it is approachable enough to be appreciated by general readers The Battle for Moscow David Stahel,2015-01-22 In November 1941 Hitler ordered German forces to complete the final drive on the Soviet capital now less than 100 kilometres away Army Group Centre was pressed into the attack for one last attempt to break Soviet resistance before the onset of winter From the German perspective the final drive on Moscow had all the ingredients of a dramatic final battle in the east which according to previous accounts only failed at the gates of Moscow David Stahel challenges this well established narrative by demonstrating that the last German offensive of 1941 was a forlorn effort undermined by operational weakness and poor logistics and driven forward by what he identifies as National Socialist military thinking With unparalleled research from previously undocumented army files and soldiers letters Stahel takes a fresh look at the battle for Moscow which even before the Soviet winter offensive threatened disaster for Germany s war in the east
