## **Soviet Power And The Countryside:**

*Soviet Power and the Countryside* N. Melvin, 2003-11-04 Drawing upon extensive archival and other original sources *Soviet Power and the Countryside* offers a new approach to understanding the political dynamics that led to the collapse of the Soviet order A detailed analysis of the design implementation and collapse of Soviet policy toward the countryside is used to explore the implications of a broadening of participation in the policy process from the 1960s Neil J Melvin argues that the new knowledge about rural society created as a result of this process provided the basis for a fundamental change in the nature of power relations in the Soviet order leading to the decay and eventual collapse of policy making institutions

**Inventing a Soviet Countryside** James W. Heinzen, 2004-02-01 Following the largest peasant revolution in history Russia's urban based Bolshevik regime was faced with a monumental task to peacefully modernize and eventually socialize the peasants in the countryside surrounding Russia's cities To accomplish this the Bolshevik leadership created the People's Commissariat of Agriculture Narkomzem which would eventually employ 70 000 workers This commissariat was particularly important both because of massive famine and because peasants composed the majority of Russia's population it was also regarded as one of the most moderate state agencies because of its nonviolent approach to rural transformation Working from recently opened historical archives James Heinzen presents a balanced thorough examination of the political social and cultural dilemmas present in the Bolsheviks strategy for modernizing of the peasantry He especially focuses on the state employees charged with no less than a complete transformation of an entire class of people Heinzen ultimately shows how disputes among those involved in this plan from the government to Communist leaders to the peasants themselves led to the shuttering of the Commissariat of Agriculture and to Stalin's cataclysmic 1929 collectivization of agriculture [The Nature of Soviet Power](#) Andy Bruno, 2016-04-11 During the twentieth century the Soviet Union turned the Kola Peninsula in the northwest corner of the country into one of the most populated industrialized militarized and polluted parts of the Arctic This transformation suggests above all that environmental relations fundamentally shaped the Soviet experience Interactions with the natural world both enabled industrial livelihoods and curtailed socialist promises Nature itself was a participant in the communist project Taking a long term comparative perspective *The Nature of Soviet Power* sees Soviet environmental history as part of the global pursuit for unending economic growth among modern states This in depth exploration of railroad construction the mining and processing of phosphorus rich apatite reindeer herding nickel and copper smelting and energy production in the region examines Soviet cultural perceptions of nature plans for development lived experiences and modifications to the physical world While Soviet power remade nature nature also remade Soviet power **Soviet Power** Jonathan Steele, 1984-10-24 From Simon Schuster *Soviet Power* is Jonathan Steele's exploration on the Kremlin's foreign policy from Brezhnev to Chernenko This analysis points to a pattern of thwarted strategy and failed objectives which has weakened the influence of the Soviet Union even while its military power has grown but warns that the United States

frequently misunderstands Soviet intentions and capabilities      **Soviet Power** James Sherr,1987-06-18      *Soviet Life* ,1975

**Soviet Power: The Continuing Challenge** James Sherr,1991-06-18 Representing the culmination of an RUSI main theme study Soviet Power and Prospects this volume is based on the Institute s proposition that military power exerts a profound influence on the course of world politics and that such power cannot be divorced from its social and political context

**Limits of Soviet Power** Edward A. Kolodziej,Roger E. Kanet,2015-12-25 An evaluation of Soviet efforts to penetrate the major regions in the southern hemisphere concluding that success has been modest and continues to be costly It is suggested that a world society could emerge based on socio economic and political competition rather than conflict and arms races

**Post-Soviet Power** Susanne A. Wengle,2015-02-05 Post Soviet Power tells the story of the Russian electricity system and examines the politics of its transformation from a ministry to a market Susanne A Wengle shifts our focus away from what has been at the center of post Soviet political economy corruption and the lack of structural reforms to draw attention to political struggles to establish a state with the ability to govern the economy She highlights the importance of hands on economic planning by authorities post Soviet developmentalism and details the market mechanisms that have been created This book argues that these observations urge us to think of economies and political authority as mutually constitutive in Russia and beyond Whereas political science often thinks of market arrangements resulting from political institutions Russia s marketization demonstrates that political status is also produced by the market arrangements that actors create Taking this reflexivity seriously suggests a view of economies and markets as constructed and contingent entities

**The Best Sons of the Fatherland** Lynne Viola,1989-03-02 In this ground breaking study Lynne Viola the first Western scholar to gain access to the Soviet state archives on collectivization brilliantly examines a lost chapter in the history of the Stalin revolution Looking in detail at the backgrounds motivations and mentalities of the 25 000ers Viola embarks on the first Western investigation of the everyday activities of Stalin s rank and file shock troops the leading cadres of socialist construction In the process Viola sheds new light on how the state mobilized working class support for collectivization and reveals that contrary to popular belief the 25 000ers went into the countryside as willing recruits This unique social history uses an on the scene line of vision to offer a new understanding of the workings times and cadres of Stalin s revolution
