Soviet Historians on Latin America Russell H. Bartley, 1978 Soviet Historians on Latin America Russell H. Bartley, 1978 *Marxist Thought in Latin America* Sheldon B. Liss, 1984 *Nikolai Bolkhovitinov and American Studies in the USSR* Sergei I. Zhuk, 2020-07-06 This study is an intellectual biography of Nikolai N Bolkhovitinov 1930 2008 the prominent Soviet historian who was a pioneering scholar of US history and US Russian relations Alongside the personal history of Bolkhovitinov this study also examines the broader social cultural and intellectual developments within the Americanist scholarly community in Soviet and post Soviet Russia Using archival documents numerous studies by Russian and Ukrainian Americanists various periodicals personal correspondence diaries and more than one hundred interviews it demonstrates how concepts genealogies and images of modernity shaped a national self perception of the intellectual elites in both nations during the Cold War Latin America, 1979-1983 Robert Delorme, 1984 **Imperial Russia and the Struggle for Latin American Independence, 1808-1828** Russell H. Bartley, 2014-10-03 This study the first of its kind in English examines Russian responses to the independence movement in Latin America during the early nineteenth century From a strictly presentist perspective the investigation of this subject contributes to the historiography of colonialism and of Latin America s relations with the major world powers In addition it rounds out the story of foreign interests in the emancipation of Spanish and Portuguese America while at the same time shedding new light on the history of Russian overseas expansion The study probes the major determinants of Russian responses to the struggle for independence of colonial Latin America and evaluates from a European perspective the actual impact of tsarist policy on the course of those historic events Drawing on a wide range of printed materials and on hitherto unused manuscript sources from the archives and libraries of Spain Portugal Brazil and the USSR it isolates Russian New World objectives during the first decades of the nineteenth century and relates those objectives to the formulation of tsarist policy toward the insurgent Iberian colonies **A Patriot's History® of the Modern World, Vol. I** Larry Schweikart, Dave Dougherty, 2012-10-11 America s story from 1898 to 1945 is nothing less than the triumph of American exceptionalism over liberal progressivism despite a few temporary victories by the latter Conservative historian Larry Schweikart has won wide acclaim for his number one New York Times bestseller A Patriot s History of the United States It proved that contrary to the liberal biases in countless other his tory books America had not really been founded on racism sexism greed and oppression Schweikart and coauthor Michael Allen restored the truly great achievements of America s patriots founders and heroes to their rightful place of honor Now Schweikart and coauthor Dave Dougherty are back with a new perspective on America s half century rise to the center of the world stage This all new volume corrects many of the biases that cloud the way people view the Treaty of Versailles the Roaring Twenties the Crash of 1929 the deployment of the atomic bomb and other critical events in global history Beginning with the Spanish American War which introduced the United States as a global military

power that could no longer be ignored and continuing through the end of World War II this book shows how a free capitalist nation could thrive when put face to face with tyrannical and socialist powers Schweikart and Dougherty narrate the many times America proved its dominance by upholding the principles on which it was founded and struggled on the rare occasions when it strayed from those principles The authors make a convincing case that America has constantly been a force for good in the world improving standards of living introducing innovations guaranteeing liberty and offering opportunities to those who had none elsewhere They also illustrate how the country ascended to superpower status at the same time it was figuring out its own identity While American ideals were defeating tyrants abroad a constant struggle against progressivism was being waged at home leading to the stumbles of the Great Depression the New Deal and the attack on Pearl Harbor Despite this rocky entrance on the world stage it was during this half century that the world came to embrace all things American from its innovations and businesses to its political system and popular culture The United States began to define what the rest of the world could emulate as the new global ideal A Patriot's History of the Modern World provides a new perspective on our extraordinary past and offers lessons we can apply to preserve American exceptionalism today and tomorrow
