Soviet National Income And Product In 1937:

Soviet National Income and Product in 1937 Abram Bergson, 1953 Applies a novel methodology of national income calculation that has been applied to numerous Western countries to the Soviet Union involving the calculation of national income as the end product of a series of interrelated sector and global accounts of incomes and their disposition **Soviet National Income and Product in 1937** Abram Bergson, 1933 *USSR--measures of Economic Growth and Development, 1950-80*, 1982 **National Income and Wealth in the U.S. and in Many Countries Abroad** United States. Department of the Treasury. Library, 1950 **Measuring National Income in the Centrally Planned Economies** William Jefferies, 2014-11-27 In 1991 Communism collapsed The cold war was over and the West had won Whole cities Moscow St Petersburg Warsaw Beijing Budapest and Bucharest whole countries indeed were privatised for nothing or next to nothing This was probably the greatest expansion of the world market in history And yet according to national income measurements of the CIA OECD World Bank and IMF this gigantic expansion of market production led to a decline in market production in the very countries where it was introduced How to explain this paradox This book traces the origin of the West's national income measurements from their origin in the 1923 4 Balance developed in the USSR to the USA in the early 1930s via two Soviet exiles Simon Kuznets and Wassily Leontief and then back to the USSR again after a vigorous debate through a protégé of Kuznets Abram Bergson The AFC imputed national incomes to a centrally planned economy based on physical not income measurements This book provides a detailed assessment of the failure of the AFC method to measure the real growth of actual market production during the transition period This book provides a detailed account of the application of national income measurements to the centrally planned economies It assesses all of the major contributors to this debate including Colin Clark Naum Jasny Alexander Gerschenkron G Warren Nutter and Abram Bergson It provides a new much higher estimate of the expansion of market production during the transition period based on an estimate of the actual growth of real market production It discusses the very significant implications of this re estimate for contemporary theories of globalisation

Education and Professional Employment in the U. S. S. R. Nicholas De Witt, 1961 **Demonizing the Other** Robert S. Wistrich, 2013-03-07 At the close of the twentieth century the stereotyping and demonization of others whether on religious nationalist racist or political grounds has become a burning issue Yet comparatively little attention has been paid to how and why we fabricate images of the other as an enemy or demon to be destroyed This innovative book fills that gap through an interdisciplinary cross cultural approach that brings together a distinguished array of historians anthropologists psychologists literary critics and feminists The historical sweep covers Greco Roman Antiquity the Middle Ages and the Modern Era Antisemitism receives special attention because of its longevity and centrality to the Holocaust but it is analyzed here within the much broader framework of racism and xenophobia The plurality of viewpoints expressed in this volume provide fascinating insights into what is common and what is unique to the many varieties of prejudice stereotyping

demonization and hatred **Economy of the Chinese Mainland** Ta-chung Liu, Kung-chia Yeh, 2015-12-08 A picture of a relentless drive for industrialization at the expense of living standards is presented in this authoritative comparison of the economic development of China in the Communist and pre Communist periods The authors have made a quantitative analysis of the economy of the Chinese mainland from 1952 to 1959 and related it to accounts for 1933 Their interpretation differs dramatically from official Communist statements and their findings cast serious doubt on Communist claims for annual increases in national income For 1958 for instance the official figure for the rate of increase was 34 per cent but the true rate was probably nearer to 14 per cent Originally published in 1965 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **The Kremlin Strikes Back** Steven Rosefielde, 2016-12-15 America and Europe responded to Russia's annexation of Crimea on March 18 2014 by discarding their policy of East West partnership and reverting intermittently to a policy of cold war The West believes that this on again off again second Cold War will end with Russia's capitulation because it is not a sufficiently great power while the Kremlin's view is just the opposite Vladimir Putin believes that if Moscow has strategic patience Russia can recover some of the geostrategic losses that it incurred when the Soviet Union collapsed The Kremlin Strikes Back scrutinizes the economic prospects of both sides including factors like military industrial prowess warfighting capabilities and national resolve addressing particularly hot button issues such as increasing military spending decreasing domestic spending and other policies Stephen Rosefielde aims to objectively gauge future prospects and the wisdom of employing various strategies to address Russian developments **USSR** Misha Belkindas, Douglas Diamond, Albina Tretyakova, 1991
