The Data Dialogues Martyn Richard Jones, 2025-07-25 The world of data information and knowledge is not merely technical It is cultural Philosophical Even spiritual at times It offers the promise of precision in an age of confusion a kind of sacred geometry hiding within spreadsheets APIs and machine learning models At its best this world stretches the human mind challenging how we define truth how we negotiate complexity and how we reconcile seemingly irreconcilable contradictions It is the domain of paradox and possibility But if that sounds a little too poetic for a tech column it s because the real story of data today is more conflicted and more compromised Beneath the surface of the data revolution where we are supposedly unlocking insight at scale and democratising analytics lies a darker current One of opportunism one of illusion The world of data is not just full of brilliant engineers and thoughtful epistemologists it s also teeming with chancers charlatans and con artists A rogues gallery of pitch deck hustlers and clickbait futurists A carnival of snake oil salesmen dressed in TED Talk casual hawking AI powered this and cloud native that with all the depth of a bumper sticker We are in the middle of a data gold rush and like every gold rush in history it has attracted not just pioneers but profiteers

their own roads to success with the help of this book *In My Father's House* Kwame Anthony Appiah, 1993-05-27 The beating of Rodney King and the resulting riots in South Central Los Angeles The violent clash between Hasidim and African Americans in Crown Heights The boats of Haitian refugees being turned away from the Land of Opportunity These are among the many racially charged images that have burst across our television screens in the last year alone images that show that for all our complacent beliefs in a melting pot society race is as much of a problem as ever in America In this vastly important widely acclaimed volume Kwame Anthony Appiah a Ghanaian philosopher who now teaches at Harvard explores in his words the possibilities and pitfalls of an African identity in the late twentieth century In the process he sheds new light on what it means to be an African American on the many preconceptions that have muddled discussions of race Africa and Afrocentrism since the end of the nineteenth century and in the end to move beyond the idea of race In *My Father's House* is especially wide ranging covering everything from Pan Africanism to the works of early African American intellectuals such as Alexander Crummell and W E B Du Bois to the ways in which African identity influences African literature In his discussion of the latter subject Appiah demonstrates how attempts to construct a uniquely African literature have ignored not only the inescapable influences that centuries of contact with the West have imposed but also the multicultural nature of Africa itself Emphasizing this last point is Appiah's eloquent title essay which offers a fitting finale to the volume In a moving first person account of his father's death and funeral in Ghana Appiah offers a brilliant metaphor for the tension between Africa's aspirations to modernity and its desire to draw on its ancient cultural roots During the Los Angeles riots Rodney King appeared on television to make his now famous plea People can we all get along In this beautiful elegantly written volume Appiah steers us along a path toward answering a question of the utmost importance to us all
