The Epic Structure of Space 1999 John K. Balor, 2018-02-18 This book contains transcripts from Online Alpha discussions where the epic and narrative structure of SPACE 1999 is being discussed by comparing episodes with themes characters and elements of plot from the Homeric Odyssey and Lewis Carroll's stories about Alice The discussion is motivated by questions raised in the scholarly literature and earlier Online Alpha debates about how to make sense of SPACE 1999 from the viewpoint of critical theory The book has been developed on an idealistic basis It is sold at the lowest price the publisher was willing to accept A free e book version can be downloaded at www.lulu.com *Space 1999 and Science Fiction Prototyping* Petter Ogland, 2018-06-25 With the first online discussions of SPACE 1999 starting in January 1993 this book celebrates the 25th anniversary of Online Alpha It is edited and told from the perspective of trying to present different types of discussions over the years by focusing on humour insight surprise and shared community There is also a focus on how the discussions have changed and how they continue to change The book is written on an idealistic basis It is sold at the lowest price the publisher was willing to accept A free e book version can be downloaded at www.lulu.com *Space 1999 and Critical Theory* John K. Balor, 2017-11-11 The television series SPACE 1999 was in its first series shaped by the late sixties and early seventies counterculture movements making SPACE 1999 into an example of how certain SF scholars see a natural alignment between science fiction and critical theory However due to changes in the political climate SPACE 1999 went through an ideological reversal in its second series As a result the schizophrenic nature of the series has ever since caused debate This book is written on an idealistic basis It is sold at the lowest price the publisher was willing to accept A free e book version can be downloaded at www.lulu.com *Cosmos 1999 - The Third Year of Space 1999* John K. Balor, 2019-07-10 What does Gerry Anderson's television series SPACE 1999 have in common with Carl Sagan's award winning television documentary COSMOS Not very much one might expect but this book documents an Online Alpha discussion where fans of the science fiction series discuss and debate differences and similarities from a wide range of perspectives some of them arguing that two series may be so closely connected that it might be natural to think of COSMOS as the third year of SPACE 1999 This book is written on an idealistic basis It is sold at the lowest price the publisher was willing to accept A free e book version can be downloaded at www.lulu.com *An Exploration of Space 1999 Through the Lens of Video Games: Payne 1999* John K. Balor, 2019-07-02 This book contains transcripts from Online Alpha discussions where the video game PAYNE 1999 game theory and game study theories are used for analysing and commenting on problems of conflict and cooperation in SPACE 1999 The discussions build on more than a decade of conversations and debate about PAYNE 1999 and the aim of the book is to put the various threads together while also developing new ideas and providing direction for further investigations The book has been developed on an idealistic basis and it is sold at the lowest price the publisher was willing to accept A free e book version can be downloaded at www.lulu.com 1999: A Space

Odyssey John K Balor, 2018-08-03 Part of the premise of the online discussion transcribed in this book is how Gerry Anderson's television series Space 1999 can be understood in relation to Stanley Kubrick's 2001 A Space Odyssey by looking at both narratives through the perspective of systems theory. As a result of doing so, an engaged debate concerned with the political and philosophical subtext of both stories developed. This book gives a full account of the debate with summaries of ideas and insights. The book has been developed on an idealistic basis. It is sold at the lowest price the publisher was willing to accept. A free e-book version can be downloaded at www.lulu.com *An Exploration of Space 1999 Through the Lens of Fan Fiction: Forever Alpha* John K. Balor, 2019-07-10 An essential introduction to a rapidly growing field of study. AN EXPLORATION OF SPACE 1999 THROUGH THE LENS OF FAN FICTION gathers in one place the complete 2015-16 Online Alpha discussion of the SPACE 1999 fan fiction corpus with a focus on the FOREVER ALPHA fan fiction series. Editor John K Balor provides a cogent introduction that places each piece in its historical and intellectual context, mapping the discussion and suggesting future trajectories. The book has been developed on an idealistic basis. It is sold at the lowest price the publisher was willing to accept. A free e-book version can be downloaded at www.lulu.com Exploring Space: 1999 John Kenneth Muir, 2015-09-15 Starring internationally renowned actors Martin Landau, Barbara Bain, Barry Morse, and Catherine Schell, the British-made Space 1999 was the only truly original space adventure of the mid-1970s. Sandwiched between the demise of the original Star Trek and the opening of the Star Wars series on the big screen, Space 1999 featured a richly visualized world where space was terrifying and mysterious, where not all problems were solvable by technology, and the space travelers were very human. From the science fiction show's conception in 1973 to its cancellation in 1977, this reference work covers each of the 48 episodes in depth, including a full plot synopsis, writer/director/guest star credits, and critical commentary that examines both the episode and other shows that have used similar plotlines. The popularity of Space 1999 memorabilia and its many fan clubs are fully discussed, along with the possibility of a future movie or reunion show that would tie up the loose ends caused by the show's abrupt cancellation. *The Physics and Astronomy of Science Fiction* Steven D. Bloom, 2016-07-13 The great scientific, astronomical, and technological advances of the 20th century inspired the science fiction genre to imagine distant worlds and futures far beyond the discoveries of the here and now. This book explores science fiction films, television series, novels, and short stories from *Lost in Space* (1965-1968) to *Fringe* (2008-2013), to the works of Isaac Asimov and Stephen Baxter, with a focus on their underlying concepts of physics and astronomy. Assessing accuracy and plausibility, the author considers the possibilities of solar system, interstellar, and faster-than-light travel; intelligent planets; dark matter; the multiverse; and string theory; time travel; alternate universes; teleportation and replication; weaponry; force fields; extraterrestrial life; subatomic life; emotional robots; superhuman and parapsychological powers; asteroid impacts; space colonies; and many other topics. **Artificial Intelligence in the Movies** David

Huckvale,2024-10-25 Since the times of ancient Greece popular culture has entertained stories of artificial humans Our modern fears about the otherness of androids and human replicants have much in common with fears of the Doppelganger a mythological harbinger of death Throughout the twentieth century AI technologies have developed at a rapid pace bringing us face to face with these ancient fears in a modern context Examining such films as The Day the Earth Stood Still Forbidden Planet and Blade Runner among others this book charts cinema s fascination with artificial intelligence and the technological double as well as the historical antecedents of the artificial human
