Space In Science Art And Society:

Space François Penz, Gregory Radick, Robert Howell, 2004-03-25 What is space This fascinating journey of exploration begins in our own minds the space within our brains We discover how space is used in sign language and in architecture before moving on to the virtual space created in an imaginary computer generated world The delineation of space has been important throughout human history and we look at how boundaries have been mapped in the past and how they remain politically important today Finally we travel into outer space to look at human exploration and the ultimate nature of space and the universe

Char Davies' Immersive Virtual Art and the Essence of Spatiality Laurie McRobert, 2007-01-01 In this first book length study of the internationally renowned Canadian artist Char Davies Laurie McRobert examines the digital installations Osmose and Eph m re in the context of Davies artistic and conceptual inspirations Davies originally a painter turned to technology in an effort to create the effect of osmosis between self and world By donning a head mounted display unit and a body vest to monitor breathing and balance participants are immersed in 3D virtual space where they interact with abstract images of nature while manoeuvring in an artificial spatial environment Char Davies Immersive Virtual Art and the Essence of Spatiality explores spatiality through a broad scope of disciplines including philosophy mythology biology and visual studies in order to familiarize the reader with virtual reality art how it differs from traditional artistic media and why immersive virtual art promises to expand our imaginative horizons This original study provides us with an important exposition of two of Char Davies acclaimed projects and an exploration of the future impact of digital virtual art on our worldviews

Space François Penz, Gregory Radick, Robert Howell, 2004 **Place, Space and Hermeneutics** Bruce B. Janz, 2017-03-29 This book analyzes the hermeneutics of place raising questions about central issues such as textuality dialogue and play It discusses the central figures in the development of hermeneutics and place and surveys disciplines and areas in which a hermeneutic approach to place has been fruitful It covers the range of philosophical hermeneutic theory both within philosophy itself as well as from other disciplines In doing so the volume reflects the state of theorization on these issues and also looks forward to the implications and opportunities that exist Philosophical hermeneutics has fundamentally altered philosophy s approach to place Issues such as how we dwell in place how place is imagined created preserved and lost and how philosophy itself exists in place have become central While there is much research applying hermeneutics to place there is little which both reflects on that heritage and critically analyzes a hermeneutic approach to place This book fills that void by offering a sustained analysis of the central elements major figures and disciplinary applications of hermeneutics and place
