Space Time Resurrection:

Space, Time and Resurrection Thomas F. Torrance, 2018-12-13 In this sequel to *Space Time and Incarnation* Thomas F. Torrance sets out the biblical approach to the Resurrection in terms of the intrinsic significance of the resurrected one Jesus and demonstrates that the Resurrection is entirely consistent with who Jesus was and what he did The Resurrection is thus taken realistically and treated as of the same nature in the integration of physical and spiritual existence as the death of Christ All this is elucidated in the context of modern scientific thought in such a way as to show that far from being frightened by modern science into a compromise of the New Testament's message of the Resurrection of Jesus Christ in body it actually allows us to take its full measure This classic volume from one of the premier English speaking theologians of the 20th century remains an important contribution to the field of systematic theology For this Cornerstones edition the preface is written by Paul D Molnar

Space, Time and Resurrection Thomas F. Torrance, *Space, Time, and Resurrection* Thomas Forsyth Torrance, 1976 The sequel to *Space Time and Incarnation* Professor Torrance attempts to set out the biblical approach to the Resurrection in terms of the intrinsic significance of the resurrected one Jesus and demonstrates that the Resurrection is entirely consistent with who Jesus was and what he did The Resurrection is thus taken realistically and treated as of the same nature in the integration of physical and spiritual existence as the death of Christ All this is elucidated in the context of modern scientific thought in such a way as to show that far from being frightened by modern science into a compromise of the NT message of the Resurrection of Jesus Christ in body it actually allows us to take its full measure

Space, Time and Resurrection Thomas F. Torrance, 2005-01 In an earlier work *Space Time and Incarnation* Torrance argued that the Incarnation is meaningless for us unless its relation with the actual structures of space and time can be clarified adequately This he did with special emphasis upon space This book is in part a sequel dealing with the Resurrection in relation to space and in particular time Torrance attempts to set out the biblical approach to the Resurrection in terms of the intrinsic significance of the resurrected one Jesus and demonstrates that the Resurrection is entirely consistent with who Jesus was and what he did The Resurrection is thus taken realistically and treated as of the same nature In the integration of physical and spiritual existence as the death of Christ But all this is elucidated in the context of modern scientific thought and questioning in such a way as to show that far from being frightened by modern science into a compromise of the New Testament message of the Resurrection of Jesus Christ in body it actually allows us to take its full measure Thomas F.

Torrance's Theology of the Ascension Stavan Narendra John, 2025-05-29 The ascension is a crucial doctrine integrally related to the incarnation When it is underemphasized it results in an impoverishment of our theology of Christ the church human beings and eschatology T F Torrance's theology offers a compelling vision and holistic doctrine of the ascension that notwithstanding its flaws deserves a careful and detailed examination Torrance develops a holistic account of the ascension by considering the ontology spatiality and present ministry of the ascended Jesus What results is a theological construction

that affirms the ascended body of Christ and understands the Lord to be currently serving as our human representative in a ministry of priestly intercession prophetic declaration and ascended kingship Torrance is able to do this without succumbing to literalism space travel demythologization metaphorical reading or Pelagianism human effort based sanctification and glorification This book interprets and then develops Torrance s theology of the ascension in critical dialogue with contemporary theological interlocutors

Hope and Community Veli-Matti Kärkkäinen, 2017 The culmination of Kärkkäinen s multivolume magnum opus This fifth and final volume of Veli-Matti Kärkkäinen s ambitious five volume systematic theology develops a constructive Christian eschatology and ecclesiology in dialogue with the Christian tradition with contemporary theology in all its global and contextual diversity and with other major living faiths Judaism Islam Buddhism and Hinduism In Part One of the book Kärkkäinen discusses eschatology in the contexts of world faiths and natural sciences including physical cosmological and neuroscientific theories In Part Two on ecclesiology he adopts a deeply ecumenical approach His proposal for greater Christian unity includes the various dimensions of the church s missional existence and a robust dialogical witness to other faith communities

Atonement Thomas F. Torrance, 2025-09-30 This companion volume to T. F. Torrance s *Incarnation: The Person and Life of Christ* presents the material on the work of Christ centered in the atonement given originally in his lectures delivered to his students in Christian Dogmatics on Christology at New College Edinburgh from 1952-1978 Like the first volume the original lecture material has been expertly edited by Robert Walker complete with cross reference to Torrance s other works Readers will find this the most readable work of Torrance and together with *Incarnation* the closest to a systematic theology we have from this eminent theologian

Transcendence and Spatiality of the Triune Creator Chan Ho Park, 2005 Since Augustine many philosophers and theologians have discussed the relation of God to time whereas the relation between God and space has been rarely discussed This book deals with the relationship of God to space Divine transcendence is one important aspect of the Christian God However God is also immanent in the world of space and time The author investigates the concept of divine spatiality and presents case studies of three modern theologians Torrance Pannenberg and Moltmann He also analyses divine spatiality by using Dyrness s three categories relationship agency and embodiment

Spirit and Salvation Veli-Matti Kärkkäinen, 2016-12-09 The fourth installment in a wide and deep constructive theology for our time This fourth volume in Veli-Matti Kärkkäinen s ambitious five volume systematic theology develops a constructive Christian pneumatology and soteriology in dialogue with the diverse global Christian tradition and with other major living faiths Judaism Islam Buddhism and Hinduism

Divine Freedom and the Doctrine of the Immanent Trinity Paul D. Molnar, 2017-02-23 Divine Freedom and the Doctrine of the Immanent Trinity is widely acclaimed by scholars in the field of Christian systematic theology Molnar s quest to place the doctrine of the immanent Trinity on the agenda of the Christian doctrine of God has proven to be a signal contribution to the debate in contemporary Christian theology The material in this second edition has been thoroughly updated it contains a new preface

and a new introduction as well as a revised bibliography The book includes a brand new chapter titled Divine Freedom Revisited which addresses those questions that have arisen in connection with Molnar's original presentation of the divine freedom Molnar re-visits here his discussion of the Logos Asarkos the theologies of Karl Rahner and Wolfhart Pannenberg He sheds new light on Rahner's and Torrance's discussions of the Resurrection and incorporates modern discussions by contemporary theologians to offer new insights into Eberhard Jüngel's thinking
