Spain Forgotten Ally Of The American Revolution:

Spain, Forgotten Ally of the American Revolution Buchanan Parker Thomson, 1976 Gálvez Edward F. Butler, 2014-12-31 Without Spanish assistance during the American Revolutionary War we would still be under the British flag Gálvez was always one step ahead of the English He drove the English out of the lower Mississippi River by defeating them at Manchac Baton Rouge many more than George Washington's Continental Army *The Role Of Spain In The American Revolution: An Unavoidable Strategic Mistake* Major Jose I. Yaniz, 2014-08-15 Spain played a significant role in the outcome of the American Revolution by providing economic support and opening war fronts to fight the British in Europe and North America Spain's support for the revolutionaries was a strategic mistake for its government for it was not in Spain's national interests as a colonial power to do this Neither France nor Spain helped the North American colonies to gain independence from Great Britain for altruistic reasons Instead both countries were eager to retaliate against Great Britain which had become the undisputed global power after these countries' defeat in the Seven Years War However Spain unlike France still possessed extended and rich territories throughout the two American continents This caused Spain to cautiously approach involvement in the American Revolution Being a colonial power like Britain Spain did not want the seed of independence to spread throughout its own colonies therefore the country never officially recognized U.S. independence during the time of the American Revolution Instead and as a result of the Bourbon Family Compact with France Spain declared war on Great Britain in 1779 but it would never fight within the Thirteen Colonies Nevertheless and despite the inherent risk Spanish ports were opened to American ships and Spain provided initially by secret means through Paris and New Orleans and later on in a more straight way financial support to the American cause in the form of money and supplies since 1776 Spanish money also financed expeditions such as De Grasse's Fleet in 1781 and the Washington's army on its march to the south that were decisive in the Yorktown victory Moreover Spain fought the British in the Spanish areas of interest including West Florida Central America the Caribbean and Europe thereby opening several fronts which the British could not simultaneously manage and threatening vital sea lines of communications of the global naval power **Spain and the American Revolution** Gabriel Paquette, Gonzalo M. Quintero Saravia, 2019-10-31 Though the participation of France in the American Revolution is well established in the historiography the role of Spain France's ally is relatively understudied and underappreciated Spain's involvement in the conflict formed part of a global struggle between empires and directly influenced the outcome of the clash between Britain and its North American colonists Following the establishment of American independence the Spanish empire became one of the nascent republic's most significant neighbors and often illicitly trading partners Bringing together essays from a range of well-regarded historians this volume contributes significantly to the international history of the Age of Atlantic Revolutions *The American Revolution 1775-1783* Richard L. Blanco, 2020-12-06 This definitive encyclopedia originally published in 1983 and now available as an ebook for the first
