Sparks And Seeds:

Prolepsis and Ennoia in the Early Stoa Henry Dyson, 2009 This book offers a reconstruction of the early Stoic doctrine of prolepsis revealing it to be much closer to Platonic recollection in certain respects than previously thought The standard interpretation of prolepsis as preconceptions is inconsistent with their status as criteria of truth Rather prolepsis is a form of tacit knowledge that requires articulation and systematization This reconstruction is supported by a comprehensive collection of texts relating to prolepsis from Epicurus to Alexander of Aphrodisias

Fable, Method, and Imagination in Descartes James Griffith,2018-01-09 What role do fables play in Cartesian method and psychology By looking at Descartes use of fables James Griffith suggests there is a fabular logic that runs to the heart of Descartes philosophy First focusing on The World and the Discourse on Method this volume shows that by writing in fable form Descartes allowed his readers to break from Scholastic methods of philosophizing With this fable structure or logic in mind the book reexamines the relationship between analysis synthesis and inexact sciences between metaphysics and ethico political life and between the imagination the will and the passions

Logos and Law in the Letter of James M.A. Jackson-McCabe,2014-04-09 This study examines the association of implanted logos and the perfect law of freedom in the Letter of James It argues that James understands the Torah to be a written expression of the divine law the Stoics correlated

with human reason After showing how past interpretation of James's logos has been guided by a problematic essentialist approach to Christian origins the Stoic theory of law is reconstructed with special attention to Cicero's concept of implanted reason Adaptations of the Stoic theory in ancient Jewish and Christian literature are examined and the Letter of James is analyzed in detail The work makes original contributions to the study of James and of Stoicism It also highlights the importance of broad reconstructions of Christian origins for the interpretation of the early Christian literature
