Crisis in Theology Crisis in Society Crisis in Economy Crisis in politics Crisis in migrations Crisis through wars the whole Species Sapiens in crisis without end But we in individuality and in community as human being we are fully indebted to the Species Sapiens with no exemption What is to be done in times of multi crisis Will we find through this titanic spirit of daring belonging to Species Sapiens Sapiens as the essence of its birth and becoming an answer to the great enigmas that surround us from all parts of our planetary system our solar system or our galactic system condensed into meanings in the great mysteries of origins and becoming of the Universe of the Solar System and of the Species Sapiens namely Where do we come from Who are we Where are we heading What is Sapiens 2 Drama Drama Drama Will we be able to rethink the universe that seems endless and full of misunderstandings starting with its supposed origin from the Big Bang Biggest Bang as a possible birth from itself with its subsequent becoming through stars galaxies solar systems and planetary systems as well as through this set of Conceptological Philosophies or Anthropological Philosophies or Sapientological or Anthro Sapientological Philosophies which illuminate and re illuminate abysses and labyrinths archetypes and unknowns uncertainties and mysteries both terrestrial and celestial astral and infra uncontained expanses of cellular and sub cellular spatiality and infra temporalities atomic subatomic ionic or molecular 3 Difficulties Difficulties Difficulties Will we manage to rewrite through the triad of Point Line Surface the whole written and transcribed by the thinking and revolting Species through our philosophical system of conceptualism in motion and re stirring of conceptualism in becoming returning of conceptualism in startling and enrichment of conceptualism in organization and self organization of conceptualism in replication and self replication as a redetermination of Individual Self Sapiens Self and Universal Self all three sharing in the same Great Unknown that we cannot know the Absolute and which is perhaps in the depths deeper than us 4 Weaknesses Weaknesses Weaknesses Will we thus withdraw a new vision into Sapiens by the very attempt to overcome and restructure it through its own decoding and re axiality even in the extremely austere conditions of viral pandemics possible revelation of a divine sign Or an astral pathology in fact a pathology of our entire Species both biological and ontological axiological and epistemological as a self revelation of our own fragility and vulnerability in its entirety biologically and bio ontologically 5 Confusions Confusions Confusions Will we be able to revitalize or even transgress a writer or re writer a thinker and a re thinker towards a bolder of all breaking levels from the horizons of knowledge and abstract constructions in Sapiens approaching the very unknown his instincts which carry us imprinted with mystery and magic miracles and mythologies through the oceans of thirsty cosmologies 6 Misunderstanding Misunderstanding Misunderstanding With these decided extra ambitions extra mobilizations and extra determinations let us proceed in a prophetic and messianic rush and possible alienation which by alienating us as a Species and possibly as an individual but this one can Re Sapientize us into the same Sapiens which is different and imperishable

recognizing our own temporality as an ineluctable fragment of eternity torn apart and withdrawn into our own frailties and vulnerabilities by the Sapient into Selfness 7 Fragilities Fragilities Fragilities Through the present approach from SAPIENTOCHRISTIANITY REBUILD 1 of the origins and evolutions of human religions converging in a Sapientology of the SapientoHuman Species an attempt is made to withdraw a conceptological ideal a CAUSAL NOVUM in history that regards itself a CAUSAL LOGOS in the conceptological that rethinks itself through which the illuminative and the contemplative become their mutual chain of universe and becoming of revelation and rationality reborn within the same the endless diversities and complexities of the world 8 Vulnerabilities Vulnerabilities Vulnerabilities In order to know ourselves better we must face and confront ourselves in knowledge and faith in revelation and reason as if intertwining them with our individualized and generalized self in the wise to attack the very transfigurations that precede us which presents and predestines us the futures of lights mysteries and mythologies all being substantiated in their very genesis and becoming preserving itself reviving itself and endlessly enriching the corollas of wonders of the sapient and post sapient worlds 9 Disasters Disasters Disasters Further more extensive more deeper we finally attempt an integration of Homo Religiosus into Homo Anthropos and Homo Sapiens through which the monolithic duality of Evolution of Genus Homo and Species Sapiens will be anthropologized sapientologized and theologized in the same conceptual sense of differentiation and selection in the same sense of evolutionary and creative uniqueness and singular unity and unitudness of Sapiens 10 Troubles Troubles Troubles Also we try to date the described events as accurately as possible with their historical geographic location and correlated with the personalities of the time in the Roman Empire all in terms of credibility and truthfulness conditions that were not fulfilled in the Old Testament raising many question marks about the events related 11 Plights Plights Plights As a conclusion in ANTHROPOSAPIENTIC THEOLOGISM the final chapter will benefit from a VIDEOLOGIZED TEXT with both scientific and religious pre existences as synthesis of EPISTEMOLOGICAL CHRISTIANITY or CHRISTIANITY OF RATIONAL REVELATION in which Science and Faith are intertwined in the human who has become a Sapient Human Being 12 Critical History Critical Sapiens Critical Christianity These twelve apostles of crisis these twelve angels of difficulties these twelve preachers of fragilities these twelve prophets of confusions these twelve teachers of unrealities these twelve sages of utopian history these twelve soothsayers of endlessly plights these twelve rhetoric of dys stressing of humanity all will be analysed in our set of classical books of virtual books and video books called SAPIENTOCHRISTIANITY REBUILD with number one two three and perhaps four It is useless to add that Sapiens will confront will face out the Sapiens itself and Christianity will confront will face out the Christianity itself by putting in and putting out the whole conceptological battlefield of our pillars of action of contemplation of praying and of rebuilding both of them for the history and historiology of Sapiens of Christianity and of SAPIENTO CHRISTIANITY in its togetherness It is no need to emphasize that in order to alleviate at least in part these dramatic developments in Sapiens and Christianity primarily it is necessary to make an ENRICHMENT of Sapiens and

Christianity and this ENRICHMENT must change into a MOVEMENT therefore an ENRICHMENT MOVEMENT  
BEREICHERUNG BEWEGUNG must be the uppermost goal of our radical endeavour in saving of what finally could be saved  
Sapientochristianity Rebuilder      **ENS HUNGARY - 2** Augustin Ostace, 2023-10-17 WATCHWORD What really means ENS  
HUNGARY There is a BEING OF HUNGARY Or an ENS of Hungary A maximal generalities of Hungary History as Being  
Hungary as ENS Hungary A synthesis of Eurasia history of wandering and settlement of a people of a folk of a nation through  
which the history is meeting the history itself overlapping into a dimension of destiny Generally speaking Yes The ENS itself  
is a Being coming from Sapiens being the last syllable out of three syllabic SA PI ENS Therefore ENS HUNGARY is an  
essence and existence of Hungary as country as nation as folk as land as aspiration as hopes as destiny as endlessly dramatic  
events undergone within its own history and historiology confronting adversities over adversities for its own recognition into  
European and World existence Once again it is to underline Ens Hungary through its own Hungary by allowing thus to an  
individual the present author to be placed inside of events and dramas of Hungary as Being of Hungary as Ens Being of  
Hungary exploring and reexploring the destiny of this country land out of Eastern and Central Europe But we are under  
pressure in rethinking and um thinking of the whole of the European Union history and historiology after big waves of union  
s earthquakes by mentioning here the big financial crisis between 2008 2010 or the Brexit of Great Britain an embittered  
fought inside of the European Union between the years 2016 and the present year of 2023 by underlining here the critical  
relationship of Hungary with European Union It is not mentioned here the waves of migrants in the last twenty years towards  
European Union with Hungary in opposition standpoint or Corona dramas waves by mentioning here the Hungarian Nobel  
price research Katalin Korika from Budapest who has great results on mtMitochondrion By retaking de Corona dramas  
through which a world of social pathology is accompanied and enhanced by a dramatic pandemic s world of biologic  
pathology this one being one of the worst issues of viral disease out breaking in the year 2020 having catastrophic  
consequences over European Union in its totality Also we will remake another configuration of the initial CONSTITUTION OF  
EUROPE with Hungary in fight for national proud written and rewritten published and republished with about 15 years ago  
resembling a parallel dialectical becoming between a finisher and a re finisher in constitution or between an influencer and  
re influencer in social sciences Terminology of different constitutions will be different in their substance and their semantics  
and meaning reflecting the difference in temporality and creativity of the author but the basic principles of ethics and  
morality are into the both constitutions the sameness If European Union enhanced with controversial Hungary needs a  
constitution then European Union must know very well the history of Europe itself must know their inhabitants the native the  
people and the citizens of Europe including those of Hungary including the science and technology of Europe including those  
coming from Hungary including the art and religions of Europe without to underestimate Hungary including the geography  
and demography of Europe an European Hungary since the oldest times of Upper Paleolithic of Neolithic of Antiquity of

Middle Age of Renaissance of Enlightenment of Modern Times and of present Third Millennium Times all in detail all in reality all in morality and rationality including here the ideologies the irrationality and tragedies of Europe including here Hungary culminating in 20th century with two world wars with Hungary into the middle of tragedies More than that our Constitution of European Union is desired to be and to become a pilot project in searching and researching in anthropo sapientology a vector of axiological and epistemological substance in knowledge and discoveries in theology and psychologies without to avoid Hungary It is the first time in Human Known History and Historiology as logos of history as reasoning of history as wisdom of history when a Constitution is becoming also a vector of knowledge an epistemological vector sensing and re sensing a searching and researching study project in Antropos Sapientology finally a form of concrete axiology in motion and emotion a substantial gnoseology having an explicit and implicit proper function of ethnology in oneself for oneself and through oneself through which Hungary is looking at its own history and historiology regaining itself out of earthquakes of history A country a nation a folk a people needs to be studied in its deep structures of ethnology and history of its difficulties and adversities throughout its own history without to be condemn without of being aware about its own philosophical psychological and theological structures and substructures A country a nation a folk a people needs to be understood in its own traditionally characteristics by rethinking everything in its history and historiology which is the core issue regarding these set of four On Line books named ENS HUNGARY Here s the ENS HUNGARY 2 [Current Catalog](#) National Library of Medicine (U.S.),1985 First multi year cumulation covers six years 1965 70 *CONSTITUTION OF ARTIFICIAL INTELLIGENCE* - 1 Augustin Ostace,2023-11-14 MOTTO Why are not enough the first three AERA of our previous AERAS namely AERA OF PHILOSOPHICAL SYSTEMS AERA 1 AERA OF SAPIENTOLOGICAL SYSTEMS AERA 2 AERA OF VIDEOLOGICAL SYSTEMS AERA 3 Being thus necessary a fourth thinkable and re thinkable Creative System the one of ARTIFICIAL INTELLIGENCE SYSTEM or SYSTEMS AI SYSTEM AIS which in German Language is entitled as K NSTLISCHE INTELLIGENZ KI and both AI and KI are under the HYBRID INTELLIGENCE of Human and Artificial alike encoded as HI by remaking out of the complex concept Hybrid a developing towards HYBRIDOLOGY and HYBRIDO LOGICUM both in Sapiens interrelated the Artificial Intelligence Systems AIS INTELLENTOLOGY INTELLENTONTOLOGY INTELLENTOLOGICUM Therefore all three signification AI KI HI through a SYSTEM are provable and demonstrable into the sameness extra enlargement and expansion of the Classic Human Brain CHB which still remains anatomically within the same limits of Classical Sapiens CSS but in abstract creativity is doing an unspeakable progress beyond of all previous frontiers This impetus in development of technological systems more and more intelligent more and more abstract more and more comprehensive more and more diversified more and more amplified more and more accelerated by comprising here at least for the time being information inspiration intuition and initiation widespread in areas of technology of industry of art of anthropology of Sapientology of cosmology of astronomy of geology and biology into which all of them means ultimately

Statistik GMDS who are holding their 24th annual meeting at this time The program of MIB 79 covers every aspect of the application of information science to medicine and public health and as such represents the state of the art Medical Informatics M I is now at a turning point To date despite the efforts made by specialists in many countries the balance sheet of M I remains rather poor One of the reasons for this situation is the fact that the computers of yesterday were the prerogative of an elite of users They were expensive difficult to use remote from the users and mainly in the hands of a sacerdotal caste of data processing specialists In the future data processing facilities will be cheap easy to handle and immediately accessible Data processing will have a chance of becoming truly democratic thanks to two important and complementary trends in computer technology 1 a network due to computer communication partnership 2 miniaturization due to the dramatic expansion of micro processor and computer technology IV The combination of these two main hardware achievements for which some neologisms have been invented compunication in the USA and telEnnatique in France will lead to a completely new way of processing data which may be called distributed informatics

Zoological Record, 1905 Zoological Record is published annually in separate sections The first of these is Comprehensive Zoology followed by sections recording a year's literature relating to a Phylum or Class of the Animal Kingdom The final section contains the new genera and subgenera indexed in the volume Each section of a volume lists the sections of that volume

*The Zoological Record*, 1905 Indexes the world's zoological and animal science literature
